HOUSEHOLD COMPOSITION	Section 100	Page 1

100.0 Definition

The Food Supplement Program, Maryland's Supplemental Nutrition Assistance Program (SNAP), helps low-income families buy the food they need for a nutritionally adequate diet. FSP benefits represent federal dollars that are spent in the communities our customers live in. Recent national estimates show that every \$5 of FSP spent generates at least \$9 in the local economy.

100.1 Purpose

This section defines the eligibility group called the Food Supplement Program (FSP) household. It describes who is and is not part of the group for FSP purposes. It also describes certain persons who are not eligible to receive FSP benefits and persons who have eligibility only in special situations.

100.2 General Food Supplement Program Household Definition

- A. The eligible group for FSP purposes is the FSP household.
- B. A household may be one person or a group of people who live together and customarily purchase and prepare their food together.
- C. It is not necessary that the group of people share other non-household expenses.
- D. There is no requirement that the household have cooking facilities or common storage of food.
- E. No individual may participate as a member of more than one household in any month except when the individual is a resident of a shelter for battered women and children as described in Section 103 (Shelter Residents).
- F. If a person or group leaves a household, they must be permitted to apply and participate as a separate household the month after the move, if otherwise eligible. The remaining household members will receive benefits based on the reduced household size.

100.3 Required Household Combinations

The following people who live together **must** be included in the same FSP household. They cannot choose to be excluded on the basis of being a boarder, roomer or live-in attendant. When they claim separate living units in the same building, they cannot be separate households if they share any common living quarters (e.g. kitchen or bathroom).

HOUSEHOLD COMPOSITION	Section 100	Page 2

A. Spouses are either of two individuals who:

1. Are married to each other under applicable state law; or
2. Hold themselves out to the community as husband and wife by representing themselves as such to relatives, friends or neighbors.

Example 1: Mr. A applied for FSP benefits. When questioned about who lives with him he said Mrs. A also lives in the home. Mr. A said they had separated, but she had no place to live so he let her stay at his house. They do not purchase and prepare food together.

The case manager includes Mrs. A in the household because spouses cannot be separate households.

Example 2: Mr. A applied for the FSP again. Mr. and Mrs. A are now divorced. They still live in the same house and still purchase and prepare food separately.

The case manager certifies Mr. A as a one-person household.

Example 3: Mr. B applied for FSP benefits for himself. When asked if other people live in the home, he stated that his girlfriend, Ms. C, and her son live with him. He also stated that Ms. C and her son purchase and prepare food separately from him.

(Note: Mr. and Ms. C are not “holding themselves out to the community as husband and wife”)

The case manager certifies Mr. B as a one-person household after getting verification from Ms. C that they do not purchase and prepare food together.

Example 4: Mrs. G applied for FSP benefits for herself and two children. She stated that her husband was not in the home only because he is in the Army and is stationed out of the U.S.

The case manager certifies Mrs. G and her children for FSP benefits. Mr. G is not in the FSP household. (The income he sends to his family is counted as unearned income.)

B. Parents and Children

1. Children, 21 years old and younger, living with their natural, adoptive parents or stepparents cannot be separate households from their parents.

HOUSEHOLD COMPOSITION	Section 100	Page 3

100.3 Required Household Combinations (continued)

Example 1: Mrs. D applied for FSP benefits for herself, her husband and child. Mrs. D is 20 years old. They live with Mrs. D's parents. The families purchase and prepare their food separately.

The case manager cannot certify Mrs. D and her family separately from her parents so she asks for verification of the parent's circumstances.

Example 2: Mr. and Mrs. E and their son moved in with Mr. E's parents. They purchase and prepare their food separately from the parents. Mr. E is 23 years old.

The case manager certifies this household separately from the parents.

Example 3: Mr. F is a 20-year old SSI recipient who lives with his parents. He is on a special diet. The parents want to apply for FSP benefits for their son only since they purchase and prepare their food separately from him.

The case manager explained that because of Mr. F's age they would all have to be included as one household and requested information about all household members.

Example 4: Ms. K applied for FSP benefits for herself and three children. She stated that two of the children live with her all the time. Her oldest son is in job corps. He is only home on some weekends.

The case manager does not include the child who is not in the home except for some weekends.

Note: This policy would also apply to children who live away from home because of school.

2. Adult children (22 years old or older) who live with their parents can be separate households if they purchase and prepare their food separately.

Example: Mr. H applied for FSP benefits for himself only. He is 25 years old. When questioned about household composition he stated that he lives with his mother and purchases and prepares his food with her.

The case manager explains to Mr. H that he has to provide information about his mother's circumstances because they cannot be separate households.

HOUSEHOLD COMPOSITION	Section 100	Page 4

100.3 Required Household Combinations (continued)

3. Joint custody arrangements

- (a) When the custody arrangement between parents is uneven, the child would be included in the household that provides the child with the majority of his or her meals.
- (b) When there is an equal custody arrangement and the children eat 50 percent of their meals with each parent, the case manager must decide which household should include the child. If both parents apply and cannot agree on which household will include the child, the case manager will resolve the issue by including the child in the household that applied first.

Note: The case manager must insure that the child is included in only one household.

C. Children Under 18 Years of Age

Children (other than foster children – See section 100.5) age 17 or younger who live with and are under the parental control of someone other than a parent cannot be a separate household.

A child is under “parental control” if he or she is financially or otherwise dependent on a member of the household.

Example: Ms. G is 17 years old. She lives with her aunt. Ms. G works and purchases and prepares her own meals. When questioned about household composition she stated that her aunt does not exercise parental control over her.

The case manager certifies Ms. G as a one-person household.

100.4 Boarders

- A. Residents of a commercial boarding house, regardless of the number of residents, are not eligible to participate in the Food Supplement Program. A commercial boarding house is an establishment that offers meals and lodging for compensation with the intent of making a profit. Do not use the number of boarders residing in a boarding house to determine if a boarding house is a commercial enterprise. Institutions listed in 100.63 of this manual are not considered boarding houses.

DEPARTMENT OF HUMAN RESOURCES FAMILY INVESTMENT ADMINISTRATION	FOOD SUPPLEMENT PROGRAM MANUAL	
HOUSEHOLD COMPOSITION	Section 100	Page 5

100.4 Boarders (continued)

- B. All other individuals or groups of individuals who pay a reasonable amount for meals and lodging must be considered boarders and are not eligible to participate independently of the household providing the board.

These individuals or groups of individuals may participate, along with a spouse or children living with them, as members of the household providing the boarder services, only at the request of the household providing the boarder services.

- C. An individual paying less than a reasonable amount cannot be considered as a boarder, but must be included as a member of the household providing the board.
- D. Persons who must be included in the household (see Section 100.3) cannot be boarders regardless of the amount of money they pay.
- E. Reasonable monthly amount is defined as follows:
1. If the boarder receives more than two meals a day, the payment must equal or exceed the maximum monthly Food Supplement Program (FSP) allotment for the appropriate household size of the boarder household.
 2. If the boarder receives two meals or less a day, the payment must equal or exceed two-thirds of the maximum monthly FSP allotment for the appropriate household size of the boarder household.

This also applies in cases where, over a period of a week or month, the household receives two or fewer meals per day when the total meals are averaged over that period of time. For example, an individual may be part of a board arrangement that provides three meals per day on Monday through Thursday each week, but not for Friday, Saturday or Sunday. When averaged over the seven days, the number of meals is less than 2, or 1.7 per day.

100.5 Individuals in Foster Care/Kinship Care Subsidized Guardianship Program

Individuals placed in the home of relatives or other individuals or families by a foster care program are considered to be boarders. They cannot get FSP benefits independently of the household providing the foster care services. Do not include the foster care income unless the foster care child is in the FS household.

A person who is fleeing to avoid prosecution, custody or confinement, **after a conviction** for committing a crime or for attempting to commit a crime that is a felony under the law of the place from which the individual is fleeing, or violating a condition of probation or parole imposed under federal or state law is considered a fleeing felon.
- B. Both verified parole and probation violators and fleeing felons are ineligible for FSP.
- C. Maryland adopted the Federal Four-Part test to establish fleeing felon or parole or probation status for an individual. According to 7CFR 273.11(n), before the local department determines an individual is a fleeing felon, the following four criteria must be met:
1. There must be a felony warrant for the individual.
 2. The individual has to be aware of, or should have reasonably expected that, a warrant has or would have been issued.
 3. The individual has to have taken some action to avoid being arrested or jailed such as:
 - Moved out of state
 - Frequently changed addresses
 - Used false identities
