1 GENERAL INFORMATION

1.1 Summary Statement

1.1.1 The Department of Human Resources (DHR or the “Department”) is issuing this Request for Proposals (RFP) to procure a financial management solution to replace the current legacy Automated Fiscal System (AFS) application. The modernization project will replace the current legacy application with a scalable solution aimed at improving DHR business operations by eliminating inefficient business processes and workarounds that are currently being used statewide. This solicitation will enable the DHR to procure a robust financial management solution that provides advanced security, performance, and user experience, in accordance with the State’s business need and requirements. The Department is seeking the recommendation of prospective bidders for the most optimal solution that can take the form of either a vendor-hosted Software-As-A-Service (SaaS) solution or a Commercially available Off The Shelf (COTS) solution as described in Section 3 of this solicitation.

1.1.2 It is the State’s intention to obtain products/services, as specified in this RFP, through a Contract between the successful Offeror and the State.

1.1.3 DHR intends to make a single award as a result of this RFP.

1.1.4 Offerors, either directly or through their subcontractor(s), must be able to deliver all products/services and meet all of the requirements requested in this solicitation. The successful Offeror (the Contractor) shall remain responsible for Contract performance regardless of Subcontractor participation in the work.

1.3 Contract Type

The Contract shall be a combination firm-fixed price and time and materials contract in accordance with COMAR 21.06.03. The pricing for the System will be firm-fixed price, and pricing for support services that support the implementation of the System will be time and materials. The Contractor will be required to provide the necessary services to setup and deploy the default configurations and environments for the implementation.

1.4 Contract Duration

1.4.1 The Contract shall start from the date of mutual contract execution by the parties.

1.4.2 As of the NTP Date contained in a Notice to Proceed (NTP), the Contractor shall perform all activities required by the Contract, including the requirements of this solicitation, and the offerings in its Technical Proposal, for the compensation described in its Financial Proposal.

1.4.3 In the case of a SaaS implementation, the Contract shall be for three (3) years from Contract start date. The State, at its sole option, may renew the term of the Contract through two (2) additional one-year renewal options for up to a total potential contract length of five (5) years.

1.4.4 The Contractor’s obligations to pay invoices to subcontractors that provide products/services during the Contract term, as well as the audit, confidentiality, document retention, and indemnification obligations of the Contract (see Attachment A) shall survive expiration or termination of the Contract and continue in effect until all such obligations are satisfied.

1.4.5 In accordance with BPW Advisory 1995-1, in the event there are unspent funds remaining on the Contract, prior to the Contract's expiration date the Department may modify the Contract to extend the Contract beyond its expiration date for a period up to, but not...
exceeding, one-third of the base term of the Contract (e.g., eight-month extension on a two-year contract) for the performance of work within the Contract's scope of work. Notwithstanding anything to the contrary, no funds may be added to the Contract in connection with any such extension.

1.5 Procurement Officer

The sole point of contact in the State for purposes of this RFP prior to the award of a Contract is the Procurement Officer as listed Key Information Summary Sheet. DHR may change the Procurement Officer at any time by written notice.

1.6 Contract Manager

The DHR Contract Manager for the Contract is listed in the Key Information Summary Sheet. DHR may change the Contract Manager at any time by written notice.

1.7 Pre-proposal Conference

1.7.1 A pre-proposal conference will be held at the time, date and location indicated on the Key Information Summary Sheet. Attendance at the pre-proposal conference is not mandatory, but all interested parties are encouraged to attend in order to facilitate better preparation of their proposals.

1.7.2 Seating at the pre-proposal conference will be limited to two (2) attendees per potential Offeror. Attendees should bring a copy of the solicitation and a business card to help facilitate the sign-in process.

1.7.3 The pre-proposal conference will be summarized in writing. As promptly, as is feasible subsequent to the pre-proposal conference, the attendance record and pre-proposal summary will be distributed via the same mechanism described for amendments and questions.

1.7.4 In order to assure adequate seating and other accommodations at the pre-proposal conference, please e-mail the Pre-Proposal Conference Response Form (Attachment E) no later than the time and date indicated on the form. In addition, if there is a need for sign language interpretation and/or other special accommodations due to a disability, please call the Procurement Officer no later than five (5) business days prior to the pre-proposal conference. DHR will make reasonable efforts to provide such special accommodation.

1.8 eMaryland Marketplace (eMM)

1.8.1 eMaryland Marketplace (eMM) is an electronic commerce system administered by the Maryland Department of General Services (DGS). In addition to using DHR’s website http://www.dhr.state.md.us/ and possibly using other means for transmitting the RFP and associated materials, the solicitation and summary of the pre-proposal conference, Offerors’ questions and the Procurement Officer’s responses, addenda, and other solicitation related information will be provided via eMM.
1.8.2 In order to receive a contract award, a company must be registered on eMM. Guidelines can be found on the eMaryland Marketplace website at http://emaryland.buyspeed.com.

1.9 Questions

1.9.1 All questions shall be submitted via e-mail to the Procurement Officer no later than the date and time indicated in the Key Information Summary Sheet. Please identify in the subject line the Solicitation Number and Title. Answers to all questions that are not clearly specific only to the requestor will be distributed to all companies the same as for RFP amendments and posted on eMM.

1.9.2 Only answers provided in writing by the State can be considered final and binding.

1.10 Procurement Method

The Contract will be awarded in accordance with the Competitive Sealed Proposals procurement method as described in COMAR 21.05.03.

1.11 Proposals Due (Closing) Date and Time

1.11.1 Proposals, in the number and form set forth in Section 4 “Proposal Format,” must be received by the Procurement Officer listed on the Key Information Summary Sheet, no later than the date and time listed on the Key Information Summary Sheet in order to be considered.

1.11.2 Requests for extension of this date or time shall not be granted. Offerors mailing Proposals should allow sufficient mail delivery time to ensure timely receipt by the Procurement Officer. Except as provided in COMAR 21.05.02.10, proposals received by the Procurement Officer after the due date and time shall not be considered.

1.11.3 Proposals may be modified or withdrawn by written notice received by the Procurement Officer before the Proposals due time and date.

1.11.4 Proposals delivered by e-mail or facsimile shall not be considered.

1.11.5 Potential Offerors not responding to this solicitation are requested to submit the “Notice to Offerors/Bidders/Contractors” form, which includes company information and the reason for not responding (e.g., too busy, cannot meet mandatory requirements).

1.12 Multiple or Alternate Proposals

Multiple and/or alternate Proposals will not be accepted.

1.13 Economy of Preparation

Proposals should be prepared simply and economically and provide a straightforward and concise description of the Offeror’s Proposal to meet the requirements of this RFP.
1.14 Public Information Act Notice

1.14.1 An Offeror should give specific attention to the clear identification of those portions of its Proposal that it considers confidential and/or proprietary commercial information or trade secrets, and provide justification why such materials, upon request, should not be disclosed by the State under the Public Information Act, Md. Code Ann., General Provisions Article, Title 4. (Also, see RFP Section 4.2.2.2. (“Claim of Confidentiality”)). This confidential and/or proprietary information should be identified by page and section number and placed after the Title Page and before the Table of Contents in the Technical Proposal and if applicable, separately in the Financial Proposal.

1.14.2 Offerors are advised that, upon request for this information from a third party, the Procurement Officer is required to make an independent determination whether the information must be disclosed.

1.15 Award Basis

The Contract shall be awarded to the responsible Offeror submitting the Proposal that has been determined to be the most advantageous to the State, considering price and evaluation factors set forth in this RFP (see COMAR 21.05.03.03F), for providing the products/services as specified in this RFP. See RFP Section 5 for further award information.

1.16 Oral Presentation/Demonstration

1.16.1 Offerors determined to be reasonably susceptible will be asked to make oral presentations summarizing their technical proposal regarding their proposed solution to State representatives. The purpose of these discussions is twofold: 1) to clarify information in Offeror’s proposal and 2) to demonstrate a production version of the solution that meets the requirements of the RFP. These demonstrations shall take place at DHR/OTHS during the evaluation phase.

1.16.2 The Offeror’s presentation must include at a minimum the following items:

a. Overview of the Offeror’s solution

b. Scripted, live demonstration of the proposed products to be conducted at DHR/OTHS, located at **1100 Eastern Blvd, Essex, MD 21221**

c. Description and demonstration of how the Offeror plans to meet the requirements identified in the RFP as described in Section 3.

d. Offeror’s experience and capabilities as it relates to this RFP

e. Description of the Offeror’s organization

f. A list of all software and hardware used in the live demonstration (e.g., laptop specification and SaaS suite name and version). All products used in the live demonstration, including SaaS and COTS solutions, must be currently in production use by at least three (3) or more customers.
1.16.3 Offerors must confirm in writing any substantive oral clarification of, or change in, their Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror’s Proposal and are binding if the Contract is awarded. The Procurement Officer will notify Offerors of the time and place of oral presentations.

1.17 Duration of Proposal

Proposals submitted in response to this RFP are irrevocable for the latest of the following: 180 days following the closing date for submission of proposals, best and final offers (if requested), or the date any protest concerning this RFP is finally resolved. This period may be extended at the Procurement Officer’s request only with the Offeror’s written agreement.

1.18 Revisions to the RFP

1.18.1 If it becomes necessary to revise this RFP before the due date for Proposals, DHR shall endeavor to provide addenda to all prospective Offerors that were sent this RFP or which are otherwise known by the Procurement Officer to have obtained this RFP. It remains the responsibility of all prospective Offerors to check all applicable websites for any addenda issued prior to the submission of Proposals. Addenda made after the due date for Proposals will be sent only to those Offerors that submitted a timely Proposal and that remain under award consideration as of the issuance date of the addenda.

1.18.2 Acknowledgment of the receipt of all addenda to this RFP issued before the Proposal due date shall be included in the Transmittal Letter accompanying the Offeror’s Technical Proposal. Acknowledgement of the receipt of addenda to the RFP issued after the Proposal due date shall be in the manner specified in the addendum notice. Failure to acknowledge receipt of an addendum does not relieve the Offeror from complying with the terms, additions, deletions, or corrections set forth in the addendum, and may cause the Proposal to be deemed not susceptible for award.

1.19 Cancellations

The State reserves the right to cancel this RFP, accept or reject any and all Proposals, in whole or in part, received in response to this RFP, to waive or permit the cure of minor irregularities, and to conduct discussions with all qualified or potentially qualified Offerors in any manner necessary to serve the best interests of the State. The State also reserves the right, in its sole discretion, to award a Contract based upon the written Proposals received without discussions or negotiations.

1.20 Incurred Expenses

The State will not be responsible for any costs incurred by any Offeror in preparing and submitting a Proposal, in making an oral presentation, in providing a demonstration, or in performing any other activities related to submitting a Proposal in response to this solicitation.
1.21 Protest/Disputes

Any protest or dispute related, respectively, to this solicitation or the Contract shall be subject to the provisions of COMAR 21.10 (Administrative and Civil Remedies).

1.22 Offeror Responsibilities

1.22.1 The successful Offeror shall be responsible for rendering products/services for which it has been selected as required by this RFP. All subcontractors shall be identified and a complete description of their role relative to the Proposal shall be included in the Offeror’s Proposal. If applicable, subcontractors utilized in meeting the established MBE or VSBE participation goal(s) for this solicitation shall be identified as provided in the appropriate Attachment(s) of this RFP (see Section 1.33 “Minority Business Enterprise (MBE) Participation Goals” and Section 1.42 “Veteran-Owned Small Business Enterprise Goals”).

1.22.2 If an Offeror that seeks to perform or provide the products/services required by this RFP is the subsidiary of another entity, all information submitted by the Offeror, such as but not limited to, references, financial reports, or experience and documentation (e.g. insurance policies, bonds, letters of credit), if any, shall pertain exclusively to the Offeror, unless the parent organization will guarantee the performance of the subsidiary. If applicable, the Offeror’s Proposal shall contain an explicit statement that the parent organization will guarantee the performance of the subsidiary.

1.23 Substitution of Contractor Personnel

A. Key Personnel

For this Contract, the following positions to be identified in the Technical Proposal will be considered Key Personnel. Each position will be fulfilled by one, and only one, candidate and shall be required to meet required qualifications stated in Section 3.5.

a) **Program Manager**: The Program Manager shall act as the main point of contact with DHR and shall be responsible for the delivery of all project deliverables.

b) **Application Architect**: The Application Architect shall ensure that all required system capabilities and customizations are developed, tested, and made available to DHR for acceptance.

c) **Computer Software/Integration Analyst (Senior)**: The Computer Software/Integration Analyst (Senior) shall work with DHR assigned personnel to design, develop, and test programmatic integrations between the Contractor’s solution and DHR applications.

B. Continuous Performance of Key Personnel

Key Personnel shall be available to perform Contract requirements 30 days from the NTP Date and shall be assigned to the project as full time resources.

Key Personnel shall perform continuously for the duration of the Contract, or such lesser duration as specified in the Technical Proposal. Key Personnel may not be removed by the Contractor from working under the Contract without the prior written approval of the Contract Manager.
The provisions of this section apply to Key Personnel identified in Work Order proposal and agreement.

C. Definitions

For the purposes of this section, the following definitions apply:

1. **Extraordinary Personnel Event** – means leave under the Family Medical Leave Act; or an incapacitating injury or incapacitating illness; or other circumstances that in the sole discretion of the State warrant an extended leave of absence, such as extended jury duty or extended military service that precludes the individual from performing his/her job duties under the Contract.

2. **Incapacitating** – means any health circumstance that substantially impairs the ability of an individual to perform the job duties described for that individual’s position in the RFP or the Contractor’s Technical Proposal.

D. Contractor Personnel General Substitution Provisions

The following provisions apply to all of the circumstances of Contractor Personnel substitution described in paragraph E of this section.

1. The Contractor shall demonstrate to the Contract Manager’s satisfaction that the proposed substitute has qualifications at least equal to those of the Contractor Personnel proposed to be replaced.

2. The Contractor shall provide the Contract Manager with a substitution request that shall include:
   a. A detailed explanation of the reason(s) for the substitution request;
   b. The resume of the proposed substitute, signed by the substituting individual and his/her formal supervisor;
   c. The official resume of the current personnel for comparison purposes; and
   d. Evidence of any required credentials.

3. The Contract Manager may request additional information concerning the proposed substitution. In addition, the Contract Manager and/or other appropriate State personnel involved with the Contract may interview the proposed substitute personnel prior to deciding whether to approve the substitution request.

4. The Contract Manager will notify the Contractor in writing of: (i) the acceptance or denial, or (ii) contingent or temporary approval for a specified time limit, of the requested substitution. The Contract Manager will not unreasonably withhold approval of a proposed Contractor Personnel replacement.

E. Replacement Circumstances

1. Key Personnel Replacement

   To replace any Key Personnel in a circumstance other than as described in 1.23.E.2, including transfers and promotions, the Contractor shall submit a substitution request as described in
paragraph D to the Contract Manager at least fifteen (15) days prior to the intended date of change. A substitution may not occur unless and until the Contract Manager approves the substitution in writing.

2. Key Personnel Replacement Due to Vacancy
   a. The Contractor shall replace Key Personnel whenever a vacancy occurs due to the sudden termination, resignation, Extraordinary Personnel Event, or death of such personnel. (A termination or resignation with thirty (30) days or more advance notice shall be treated as a replacement under Section E.1.)
   
b. Under any of the circumstances set forth in this paragraph E.2, the Contractor shall identify a suitable replacement and provide the same information and items required under paragraph D of this section within fifteen (15) days of the actual vacancy occurrence or from when the Contractor first knew or should have known that the vacancy would be occurring, whichever is earlier.

3. Key Personnel Replacement Due to an Indeterminate Absence
   a. If any Key Personnel has been absent from his/her job for a period of ten (10) days due to injury, illness, or other physical condition, or an Extraordinary Personnel Event and it is not known or reasonably anticipated that the individual will be returning to work within the next twenty (20) days to fully resume all job duties, before the 25th day of continuous absence, the Contractor shall identify a suitable replacement and provide the same information and items to the Contract Manager as required under paragraph D of this section.
   
b. However, if this person is available to return to work and fully perform all job duties before a replacement has been authorized by the Contract Manager the Contract Manager may, at his/her sole discretion, authorize the original personnel to continue to work under the Contract, or authorize the replacement personnel to replace the original personnel, notwithstanding the original personnel’s ability to return.

4. Directed Personnel Replacement
   a. The Contract Manager may direct the Contractor to replace any Contractor Personnel who, in the sole discretion of the Contract Manager, are perceived as being unqualified, non-productive, unable to fully perform the job duties, disruptive, or known, or reasonably believed, to have committed a major infraction(s) of law, Department policies, or Contract requirements. Normally, a directed personnel replacement will occur only after prior notification of problems with requested remediation, as described in paragraph 4.b.
   
b. If deemed appropriate in the discretion of the Contract Manager, the Contract Manager shall give written notice of any Contractor Personnel performance issues to the Contractor, describing the problem and delineating the remediation requirement(s). The Contractor shall provide a written response to the remediation requirements in a Remediation Plan within ten (10) days of the date of the notice and shall immediately implement the Remediation Plan upon written acceptance by the Contract Manager. If the Contract Manager rejects the Remediation Plan, the Contractor shall revise and resubmit the plan to
the Contract Manager within five (5) days, or in the timeframe set forth by the Contract Manager in writing.

c. Should performance issues persist despite an approved Remediation Plan, the Contract Manager may give written notice of the continuing performance issues and either request a new Remediation Plan within a specified time limit or direct the substitution of Contractor Personnel whose performance is at issue with a qualified substitute, including requiring the immediate removal of the Contractor Personnel at issue.

d. Replacement or substitution of Contractor Personnel under this section shall be in addition to, and not in lieu of, the State’s remedies under the Contract or which otherwise may be available at law or in equity.

e. If the Contract Manager determines to direct substitution under 1.23.E.4.a, if at all possible, at least fifteen (15) days advance notice shall be given to the Contractor. However, if the Contract Manager deems it necessary and in the State’s best interests to remove the Contractor Personnel with less than fifteen (15) days’ notice, the Contract Manager may direct the removal in a timeframe of less than fifteen (15) days, including immediate removal.

F. Substitution Prior to and Within 30 Days After Contract Execution

Prior to contract execution or within thirty (30) days after Contract execution, the Offeror may substitute proposed Key Personnel only under the following circumstances: vacancy occurs due to the sudden termination, resignation, or approved leave of absence due to an Extraordinary Personnel Event, or death of such personnel. To qualify for such substitution, the Offeror must demonstrate to the State's satisfaction the event necessitating substitution and that the originally proposed staff is actual full-time personnel employed directly with the Offeror (subcontractors, temporary staff or 1099 contractors do not qualify). Proposed substitutions shall be of equal caliber or higher, in the State's sole discretion. Proposed substitutes deemed by the State to be less qualified than the originally proposed individual may be grounds for pre-award disqualification or post-award termination.

1.24 Mandatory Contractual Terms

By submitting a Proposal in response to this RFP, an Offeror, if selected for award, shall be deemed to have accepted the terms and conditions of this RFP and the Contract, attached hereto as Attachment A. Any exceptions to this RFP or the Contract shall be clearly identified in the Executive Summary of the Technical Proposal. **The volume and severity of exceptions to the Contract terms, including the terms of the RFP, will be considered in the evaluation process, and may be grounds for finding an Offeror not reasonably susceptible for award.**

1.25 Bid/Proposal Affidavit

A Proposal submitted by an Offeror must be accompanied by a completed Bid/Proposal Affidavit. A copy of this Affidavit is included as Attachment B of this RFP.
1.26 Contract Affidavit

All Offerors are advised that if a Contract is awarded as a result of this solicitation, the successful Offeror will be required to complete a Contract Affidavit. A copy of this Affidavit is included for informational purposes as Attachment C of this RFP. This Affidavit must be provided within five (5) Business Days of notification of recommended award. For purposes of completing Section “B” of this Affidavit (Certification of Registration or Qualification with the State Department of Assessments and Taxation), note that a business entity that is organized outside of the State of Maryland is considered to be a “foreign” business.

1.27 Compliance with Laws/Arrearages

1.27.1 By submitting a Proposal in response to this RFP, the Offeror, if selected for award, agrees that it will comply with all federal, State, and local laws applicable to its activities and obligations under the Contract.

1.27.2 By submitting a response to this solicitation, the Offeror also represents that it is not in arrears in the payment of any obligations due to the State of Maryland, including the payment of taxes and employee benefits, and that it shall not become so in arrears during the term of the contract if selected for the Contract award.

1.28 Verification of Registration and Tax Payment

1.28.1 Before a business entity can do business in the State of Maryland, it must be registered with the Department of Assessments and Taxation, State Office Building, Room 803, 301 West Preston Street, Baltimore, Maryland 21201. The SDAT website is http://sdatcert3.resiusa.org/ucc-charter/.

1.28.2 It is strongly recommended that any potential Offeror complete registration prior to the due date for receipt of Proposals. An Offeror’s failure to complete registration with the Department of Assessments and Taxation may disqualify an otherwise successful Offeror from final consideration and recommendation for Contract award.

1.29 False Statements

Offerors are advised that Md. Code Ann., State Finance and Procurement Article, § 11-205.1 provides as follows:

1.29.1 In connection with a procurement contract, a person may not willfully:

   a. Falsify, conceal, or suppress a material fact by any scheme or device.
   b. Make a false or fraudulent statement or representation of a material fact.
   c. Use a false writing or document that contains a false or fraudulent statement or entry of a material fact.

1.29.2 A person may not aid or conspire with another person to commit an act under subsection (1) of this section.
1.29.3 A person who violates any provision of this section is guilty of a felony and on conviction is subject to a fine not exceeding $20,000 or imprisonment not exceeding five years or both.

1.30 Payments by Electronic Funds Transfer

By submitting a response to this solicitation, the Offeror agrees to accept payments by electronic funds transfer (EFT) unless the State Comptroller’s Office grants an exemption. Payment by EFT is mandatory for contracts exceeding $200,000. The successful Offeror shall register using the COT/GAD X-10 Vendor Electronic Funds (EFT) Registration Request Form.

Any request for exemption must be submitted to the State Comptroller’s Office for approval at the address specified on the COT/GAD X-10 form and must include the business identification information as stated on the form and include the reason for the exemption. The COT/GAD X-10 form can be downloaded at: http://comptroller.marylandtaxes.com/Government_Services/State_Accounting_Information/Static_Files/APM/gadx-10.pdf.

1.31 Prompt Payment Policy

This procurement and the Contract to be awarded pursuant to this solicitation are subject to the Prompt Payment Policy Directive issued by the Governor’s Office of Minority Affairs (GOMA) and dated August 1, 2008. Promulgated pursuant to Md. Code Ann., State Finance and Procurement Article, §§ 11-201, 13-205(a), and Title 14, Subtitle 3, and COMAR 21.01.01.03 and 21.11.03.01, the Directive seeks to ensure the prompt payment of all subcontractors on non-construction procurement contracts. The Contractor must comply with the prompt payment requirements outlined in the Contract, Sections 8 “Prompt Pay Requirements” and R20.14.3 “MBE Prompt Pay Requirements” (see Attachment A), should an MBE goal apply to this RFP. Additional information is available on GOMA’s website at: http://goma.maryland.gov/Pages/Legislation-and-Policy.aspx.

Code Ann., Maryland Uniform Electronic Transactions Act, Commercial Law Article, Title 21.

1.32.2 Participation in the solicitation process on a procurement contract for which electronic means has been authorized shall constitute consent by the Offeror to conduct by electronic means all elements of the procurement of that Contract which are specifically authorized under the solicitation or the Contract.

1.32.3 “Electronic means” refers to exchanges or communications using electronic, digital, magnetic, wireless, optical, electromagnetic, or other means of electronically conducting transactions.    f. notices of award selection or non-selection
   g. the Procurement Officer’s decision on any Bid protest or Contract claim
   h. request for best and final offers

2. An Offeror or potential Offeror may use e-mail to:
   a. ask questions regarding the solicitation
   b. reply to any material received from the Procurement Officer by electronic means that includes a Procurement Officer’s request or direction to reply by e-mail or facsimile, but only on the terms specifically approved and directed by the Procurement Officer
   c. submit a "No Bid/Proposal Response" to the solicitation

3. The Procurement Officer, the Contract Manager, and the Contractor may conduct day-to-day Contract administration, except as outlined in Section 1.32.5 of this subsection, utilizing e-mail, facsimile, or other electronic means if authorized by the Procurement Officer or Contract Manager.

1.32.5 The following transactions related to this procurement and any Contract awarded pursuant to it are not authorized to be conducted by electronic means:

   a. submission of initial Proposals
   b. filing of protests;
   c. filing of Contract claims;
   d. submission of documents determined by DHR to require original signatures (e.g., Contract execution, Contract modifications); or

1.32.6 Any facsimile or e-mail transmission is only authorized to the facsimile numbers or e-mail addresses for the identified person as provided in the solicitation, the Contract, or in the direction from the Procurement Officer or Contract Manager.

### 1.33 Minority Business Enterprise (MBE) Participation Goal

#### 1.33.1 Establishment of Goal and Subgoals

In addition, the following subgoals have been established for this procurement:

- **A.** 7% for African-American MBEs,
- **B.** 8% for Woman-Owned MBEs.

- **Attachment D-1A:** MBE Utilization and Fair Solicitation Affidavit & MBE Participation Schedule *(must submit with Proposal)*
- **Attachment D-1B:** Waiver Guidance
- **Attachment D-1C:** Good Faith Efforts Documentation to Support Waiver Request
- **Attachment D-2:** Outreach Efforts Compliance Statement
- **Attachment D-3A:** MBE Subcontractor Project Participation Certification
- **Attachment D-3B:** MBE Prime Project Participation Certification
- **Attachment D-4A:** Prime Contractor Paid/Unpaid MBE Invoice Report

- **B.** The Offeror responds to the expected degree of MBE participation, as stated in the solicitation, by identifying the specific commitment of certified MBEs at the time of Proposal submission. The Offeror shall specify the percentage of total contract value associated with each MBE subcontractor identified on the MBE participation schedule, including any work...
performed by the MBE prime (including a prime participating as a joint venture) to be counted towards meeting the MBE participation goals.

C An Offeror requesting a waiver should review Attachment D-1B (Waiver Guidance) and D-1C (Good Faith Efforts Documentation to Support Waiver Request) prior to submitting its request.

1.33.4 Offerors are responsible for verifying that each of the MBE(s) (including any MBE primes and/or MBE primes participating in a joint venture), selected to meet the goal and any subgoals and subsequently identified in Attachment D-1A is appropriately certified and has the correct NAICS codes allowing it to perform the committed work.

D. Any other documentation required by the Procurement Officer to ascertain Offeror responsibility in connection with the certified MBE subcontractor participation goal or any applicable subgoals.

*If the recommended awardee fails to return each completed document within the required time, the Procurement Officer may determine that the recommended awardee is not responsible and, therefore, not eligible for Contract award. If the Contract has already been awarded, the award is voidable.*

The directory is also available on the MDOT website at [http://mbe.mdot.state.md.us/directory/](http://mbe.mdot.state.md.us/directory/). The most current and up-to-date information on MBEs is available via this website. Only MDOT-certified MBEs may be used to meet the MBE subcontracting goals.

1.33.7 The Contractor, once awarded a Contract, will be responsible for submitting or requiring its subcontractor(s) to submit the following forms to provide the State with ongoing monitoring of MBE Participation:

B. Attachment D-4B (MBE Prime Contractor Report)
C. Attachment D-5 (MBE Subcontractor/Contractor Unpaid MBE Invoice Report).

1.33.8 An Offeror that requested a waiver of the goal or any of the applicable subgoals will be responsible for submitting the Good Faith Efforts Documentation to Support Waiver Request (Attachment D-1C) and all documentation within ten (10) business days from notification of recommended award or from the date of the actual award, whichever is earlier, as required in COMAR 21.11.03.11.

1.33.9 All documents, including the MBE Utilization and Fair Solicitation Affidavit & MBE Participation Schedule (Attachment D-1A), completed and submitted by the Offeror in connection with its certified MBE participation commitment shall be considered a part of the resulting Contract and are hereby expressly incorporated into the Contract by reference thereto. All of the referenced documents will be considered a part of the Proposal for order of precedence purposes (see Contract – Attachment A, Section 2.2).

1.33.10 The Offeror is advised that liquidated damages will apply in the event the Contractor fails to comply in good faith with the requirements of the MBE program and pertinent Contract provisions. (See Contract - Attachment A, Section R20.14.2).

1.33.11 As set forth in COMAR 21.11.03.12-1(D) when a certified MBE firm participates on a contract as a prime contractor (including a joint-venture where the MBE firm is a partner), a procurement agency may count the distinct, clearly defined portion of the work of the contract that the certified MBE firm performs with its own work force towards fulfilling up to fifty-percent (50%) of the MBE participation goal (overall) and up to one hundred percent (100%) of not more than one of the MBE participation subgoals, if any, established for the contract.

In order to receive credit for self-performance, an MBE prime must list its firm in Section 4A of the MBE Participation Schedule (Attachment D-1A) and include information regarding the work it will self-perform. For the remaining portion of the overall goal and the subgoals, the MBE prime must also identify other certified MBE subcontractors (see Section 4B of the MBE Participation Schedule (Attachment D-1A)) used to meet those goals. If dually-certified, the MBE prime can be designated as only one of the MBE classifications but can self-perform up to 100% of the stated subgoal.

As set forth in COMAR 21.11.03.12-1, once the Contract work begins, the work performed by a certified MBE firm, including an MBE prime, can only be counted towards the MBE participation goal(s) if the MBE firm is performing a commercially useful function on the Contract.

1.33.12 With respect to Contract administration, the Contractor shall:

A. Submit by the 10th of each month to the Contract Manager and DHR’s MBE Liaison Officer:

i. A Prime Contractor Paid/Unpaid MBE Invoice Report (Attachment D-4A) listing any unpaid invoices, over 45 days old, received from any certified MBE subcontractor, the amount of each invoice and the reason payment has not been made; and

ii. (If Applicable) An MBE Prime Contractor Report (Attachment D-4B) identifying an MBE prime’s self-performing work to be counted towards the MBE participation goals.
B. Include in its agreements with its certified MBE subcontractors a requirement that those subcontractors submit by the 10th of each month to the Contract Manager an MBE Subcontractor Paid/Unpaid Invoice Report (Attachment D-5) that identifies the Contract and lists all payments to the MBE subcontractor received from the Contractor in the preceding 30 days, as well as any outstanding invoices, and the amounts of those invoices.

C. Maintain such records as are necessary to confirm compliance with its MBE participation obligations. These records must indicate the identity of certified minority and non-minority subcontractors employed on the Contract, the type of work performed by each, and the actual dollar value of work performed. Subcontract agreements documenting the work performed by all MBE participants must be retained by the Contractor and furnished to the Procurement Officer on request.

D. Consent to provide such documentation as reasonably requested and to provide right-of-entry at reasonable times for purposes of the State’s representatives verifying compliance with the MBE participation obligations. Contractor must retain all records concerning MBE participation and make them available for State inspection for three years after final completion of the Contract.

E. Upon completion of the Contract and before final payment and/or release of retainage, submit a final report in affidavit form and under penalty of perjury, of all payments made to, or withheld from MBE subcontractors.

1.34 Living Wage Requirements

1.34.1 Maryland law requires that contractors meeting certain conditions pay a living wage to covered employees on State service contracts over $100,000. Maryland Code Ann., State Finance and Procurement Article, § 18-101 et al. The Commissioner of Labor and Industry at the Department of Labor Licensing and Regulation (DLLR) requires that a contractor subject to the Living Wage law submit payroll records for covered employees and a signed statement indicating that it paid a living wage to covered employees; or receive a waiver from Living Wage reporting requirements. See COMAR 21.11.10.05.

1.34.2 If subject to the Living Wage law, Contractor agrees that it will abide by all Living Wage law requirements, including but not limited to reporting requirements in COMAR 21.11.10.05. Contractor understands that failure of Contractor to provide such documents is a material breach of the terms and conditions and may result in Contract termination, disqualification by the State from participating in State contracts, and other sanctions.

1.34.3 Additional information regarding the State’s living wage requirement is contained in Attachment G. Offerors must complete and submit the Maryland Living Wage Requirements Affidavit of Agreement (Attachment G) with their Proposals. If an Offeror fails to complete and submit the required documentation, the State may determine the Offeror to not be responsible under State law.

1.34.4 Contractors and Subcontractors subject to the Living Wage Law shall pay each covered employee at least the minimum amount set by law for the applicable Tier area. The specific living wage rate is determined by whether a majority of services take place in a Tier 1 Area or a Tier 2 Area of the State. The specific Living Wage rate is determined by whether a
majority of services take place in a Tier 1 Area or Tier 2 Area of the State. If the Contractor provides more than 50% of the services from an out-of-State location, the State agency determines the wage tier based on where the majority of the service recipients are located. See COMAR 21.11.10.07.

1.34.5 The Offeror shall identify in the Proposal the location from which services will be provided.

**NOTE:** Whereas the Living Wage may change annually, the Contract price will not change because of a Living Wage change.

### 1.35 Federal Funding Acknowledgement

1.35.1 There are programmatic conditions that apply to the Contract due to federal funding (see Attachment H).

1.35.2 The total amount of federal funds allocated for DHR is $1,853,039,012 in Maryland State fiscal year 2016. Of this 3.82% of all funds is budgeted for OTHS in that fiscal year. This does not necessarily represent the amount of funding available for any particular grant, contract, or solicitation.

1.35.3 The Contract contains federal funds. The source of these federal funds is IFS (CFDA 10.561), IV-E (CFDA 93.658), IV-D (CFDA 93.563), TANF (CFDA 93.558) and XIX CFDA 93.778). The conditions that apply to all federal funds awarded by the Department are contained in Federal Funds Attachment H. Any additional conditions that apply to this particular federally-funded contract are contained as supplements to Federal Funds Attachment H and Offerors are to complete and submit these Attachments with their Proposal as instructed in the Attachments. Acceptance of this agreement indicates the Offeror’s intent to comply with all conditions, which are part of the Contract.

### 1.36 Conflict of Interest Affidavit and Disclosure

1.36.1 Offerors shall complete and sign the Conflict of Interest Affidavit and Disclosure (Attachment I) and submit it with their Proposal. All Offerors are advised that if a Contract is awarded as a result of this solicitation, the Contractor’s personnel who perform or control work under this Contract and each of the participating subcontractor personnel who perform or control work under this Contract shall be required to complete agreements substantially similar to Attachment I Conflict of Interest Affidavit and Disclosure.

1.36.2 Additionally, Contractors have an ongoing obligation to ensure that any necessary Personnel or Subcontractor personnel have completed such agreements prior to providing services under individual Task Orders issued under the Contract. For policies and procedures applying specifically to Conflict of Interests, the Contract is governed by COMAR 21.05.08.08.

1.36.3 Contractors should be aware that the State Ethics Law, Md. Code Ann., General Provisions Article, Title 5, might limit the selected Contractor's ability to participate in future related procurements, depending upon specific circumstances.
1.36.4 By submitting a Conflict of Interest Affidavit and Disclosure, the Contractor shall be construed as certifying all Personnel and Subcontractors are also without a conflict of interest as defined in COMAR 21.05.08.08A.

### 1.37 Non-Disclosure Agreement

1.37.1 Non-Disclosure Agreement (Offeror)

Certain documentation may be available for potential Offerors to review at a reading room at DHR’s address. Offerors who review such documentation will be required to sign a Non-Disclosure Agreement (Offeror) in the form of Attachment J. Please contact the Procurement Officer to schedule an appointment.

1.37.2 Non-Disclosure Agreement (Contractor)

All Offerors are advised that this solicitation and any resultant Contract(s) are subject to the terms of the Non-Disclosure Agreement (NDA) contained in this solicitation as Attachment K. This Agreement must be provided within five (5) Business Days of notification of recommended award; however, to expedite processing, it is suggested that this document be completed and submitted with the Proposal.

4. No work involving returns and return information furnished under the Contract shall be subcontracted without prior written approval of the IRS.

5. The Contractor shall maintain a list of employees authorized access. Such list shall be provided to DHR and, upon request, to the IRS reviewing office.
6. DHR shall have the right to void the Contract if the Contractor fails to provide the safeguards described above.

B. CRIMINAL/CIVIL SANCTIONS

1. Each officer or employee of any person to whom returns or return information is or may be disclosed shall be notified in writing by such person that returns or return information disclosed to such officer or employee, and can be used only for a purpose and to the extent authorized herein, and that further disclosure of any such returns or return information for a purpose or to an extent unauthorized herein constitutes a felony punishable upon conviction by a fine of as much as $5,000.00 or imprisonment for as long as five years, or both, together with the costs of prosecution. Such person shall also notify each such officer and employee that any such unauthorized future disclosure of returns or return information may also result in an award of civil damages against the officer or employee in an amount not less than $1,000.00 with respect to each instance of unauthorized disclosure. These penalties are prescribed by IRC Sections 7213 and 7431 and set forth at 26 CFR 301.6103(n)-1.

in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than $5,000.00.

4. Granting a Contractor’s employees access to FTI shall be preceded by certifying that each individual understands the agency’s security policy and procedures for safeguarding IRS information. As part of the certification and at least annually afterwards, contractors should be advised of the provisions of IRC Sections 7431, 7213, and 7213A (see Exhibit 6, IRC Sec. 7431 Civil Damages for Unauthorized Disclosure of Returns and Return Information and Exhibit 5, IRC Sec. 7213 Unauthorized Disclosure of Information). The training provided before the initial certification and annually thereafter shall also cover the incident response policy and procedure for reporting unauthorized disclosures and data breaches. See Attachment W – Annual Internal Revenue Contractor Awareness Acknowledgement and Attachment X – Annual State of Maryland Awareness Acknowledgement.

C. INSPECTION

The IRS and DHR shall have the right to send its officers and employees into the offices and plants of the contractor for inspection of the facilities and operations provided for the performance of any work under the Contract. On the basis of such inspection, specific measures may be required in cases where the contractor is found to be noncompliant with the Contract safeguards.

1.39 HIPAA - Business Associate Agreement

A HIPAA Business Associate Agreement is not required for this procurement.

1.40 Non-Visual Access

1.40.1 By submitting a Proposal, the Offeror warrants that the Information Technology offered under the Proposal: (1) provides equivalent access for effective use by both visual and non-visual means; (2) will present information, including prompts used for interactive communications, in formats intended for both visual and non-visual use; (3) if intended for use in a network, can be integrated into networks for obtaining, retrieving, and disseminating information used by individuals who are not blind or visually impaired; and (4) is available, whenever possible, without modification for compatibility with software and hardware for non-visual access. The Offeror further warrants that the cost, if any, of modifying the Information Technology for compatibility with software and hardware used for non-visual access will not increase the cost of the Information Technology by more than five percent (5%). For purposes of this solicitation, the phrase “equivalent access” means the
ability to receive, use and manipulate information and operate controls necessary to access and use Information Technology by non-visual means. Examples of equivalent access include keyboard controls used for input and synthesized speech, Braille, or other audible or tactile means used for output.

1.40.2 The Non-visual Access Clause noted in COMAR 21.05.08.05 and referenced in this solicitation is the basis for the standards that have been incorporated into the Maryland regulations, which can be found at: www.doit.maryland.gov, keyword: NVA.

### 1.41 Mercury and Products That Contain Mercury

This solicitation does not include the procurement of products known to likely include mercury as a component.

### 1.42 Veteran-Owned Small Business Enterprise Goals

1.42.1 Notice to Offerors

Questions or concerns regarding the Veteran-Owned Small Business Enterprise (VSBE) subcontractor participation goal of this solicitation must be raised before the due date for submission of Proposals.

1.42.2 Purpose

The Contractor shall structure its procedures for the performance of the work required in this Contract to attempt to achieve the VSBE subcontractor participation goal stated in this solicitation. VSBE performance must be in accordance with this section and Attachment N, as authorized by COMAR 21.11.13. The Contractor agrees to exercise all good faith efforts to carry out the requirements set forth in this section and Attachment N.

1.42.3 VSBE Goals

An overall MBE subcontractor participation goal of the total contract dollar amount has been established for this procurement as identified in the Key Information Summary Sheet.

By submitting a response to this solicitation, the Offeror agrees that this percentage of the total dollar amount of the Contract will be performed by verified veteran-owned small business enterprises.

In 2015, Maryland amended COMAR 21.11.13.05 as part of its Veteran-Owned Small Business Enterprise (VSBE) program concerning VSBE primes. This amendment, which became effective March 6, 2015, allows an agency to count the distinct, clearly defined portion of work that a certified VSBE performs with its own work force toward meeting up to one-hundred (100%) of the VSBE goal established for a procurement. Please see the attached VSBE forms and instructions.

In order to receive credit for self-performance, a VSBE Prime must list its firm in the VSBE Prime/Subcontractor Participation Schedule (Attachment N-1) and include information regarding the work it will self-perform. For any remaining portion of the VSBE goal that is not
to be performed by the VSBE Prime, the VSBE Prime must also identify verified VSBE subcontractors used to meet the remainder of the goal.

1.42.4 Solicitation and Contract Formation

An Offeror must include with its Proposal a completed Veteran-Owned Small Business Enterprise Utilization Affidavit and Subcontractor Participation Schedule (Attachment N-1) whereby:

A. The Offeror acknowledges it: a) intends to meet the VSBE participation goal; or b) requests a full or partial waiver of the VSBE participation goal. If the Offeror commits to the full VSBE goal or requests a partial waiver, it shall commit to making a good faith effort to achieve the stated goal.

B. The Offeror responds to the expected degree of VSBE participation as stated in the solicitation, by identifying the specific commitment of VSBEs at the time of Proposal submission.

C. The Offeror shall specify the percentage of contract value associated with each VSBE subcontractor identified on the VSBE Participation Schedule.

If an Offeror fails to submit Attachment N-1 with the Proposal as required, the Procurement Officer may determine that the Proposal is not reasonably susceptible of being selected for award.

1.42.5 Within 10 Working Days from notification of recommended award, the awardee must provide the following documentation to the Procurement Officer.

A. VSBE Subcontractor Participation Statement (Attachment N-2);

B. If the apparent awardee believes a full or partial waiver of the overall VSBE goal is necessary, it must submit a fully-documented waiver request that complies with COMAR 21.11.13.07; and

C. Any other documentation required by the Procurement Officer to ascertain Offeror responsibility in connection with the VSBE subcontractor participation goal.

If the apparent awardee fails to return each completed document within the required time, the Procurement Officer may determine that the apparent awardee is not reasonably susceptible of being selected for award.

1.42.6 The Contractor, once awarded the Contract shall:

A. Submit monthly by the 10th of the month following the reporting period to the Contract Manager and Department VSBE representative a report listing any unpaid invoices, over 45 days old, received from any VSBE subcontractor, the amount of each invoice, and the reason payment has not been made (Attachment N-3).

B. Include in its agreements with its VSBE subcontractors a requirement that those subcontractors submit monthly by the 10th of the month following the reporting period to the Contract Manager and Department VSBE representative a report that identifies the prime contract and lists all payments received from Contractor in the preceding 30 days, as well as any outstanding invoices, and the amount of those invoices (Attachment N-4).
C. Maintain such records as are necessary to confirm compliance with its VSBE participation obligations. These records must indicate the identity of VSBE and non-VSBE subcontractors employed on the contract, the type of work performed by each, and the actual dollar value of work performed. The subcontract agreement documenting the work performed by all VSBE participants must be retained by the Contractor and furnished to the Procurement Officer on request.

D. Consent to provide such documentation as reasonably requested and to provide right-of-entry at reasonable times for purposes of the State’s representatives verifying compliance with the VSBE participation obligations. The Contractor must retain all records concerning VSBE participation and make them available for State inspection for three years after final completion of the Contract.

E. At the option of the procurement Department, upon completion of the Contract and before final payment and/or release of retainage, submit a final report in affidavit form and under penalty of perjury, of all payments made to, or withheld from VSBE subcontractors.

1.43 Location of the Performance of Services Disclosure

The Offeror is required to complete the Location of the Performance of Services Disclosure. A copy of this Disclosure is included as Attachment O. The Disclosure must be provided with the Proposal.

1.44 Department of Human Resources (DHR) Hiring Agreement

This solicitation does not require a DHR Hiring Agreement.

1.45 Purchasing and Recycling Electronic Products

This section does not apply to this solicitation.

1.46 Contract Extended To Include Other Non-State Governments or Agencies

This section does not apply to this solicitation.

1.47 Proposal/Bid Bond

This section does not apply to this solicitation.

1.48 Surety Bond Assistance Program

1.51 Right to Audit

As the case may arise, the Contractor shall be expected to fully cooperate with any audit by DHR or an outside agency. This may require the preparation of special reports or submission of requested data. Currently DHR is required to comply with the following auditing authorities:

A. Maryland State Department of IT (DoIT)

The DoIT Office of Program Oversight may solicit Independent Verification & Validation (IV & V) contractors to conduct a health assessment of select Major IT Development Projects (MITDP), based on the project/agency’s recent history. The Office of Program Oversight may also require this due to other mitigating factors such as legislative regulations, high visibility, mission criticality or multiple agency functionality. An IV&V is an independent verification and validation or a third party assessment of a project.

B. Maryland State Office of Legislative Audits

The Office of Legislative Audits (OLA) conducts audits and evaluations of Maryland State government agencies and local school systems. OLA is a unit within the Department of Legislative Services, which provides staff support for the Maryland General Assembly.

Fiscal compliance audits are conducted of each State agency within the Executive and Judicial Branches to evaluate internal controls and compliance with certain State laws and regulations. For certain agencies, this category also includes financial statement audits and follow-up reviews of actions taken to implement audit recommendations.

Performance audits are conducted based on legislative requests or at the discretion of the Legislative Auditor. The purpose of a performance audit is to evaluate whether an agency or program is operating in an economic, efficient, and effective manner or to determine whether desired program results have been achieved. This category also includes special reviews, which are less comprehensive than audits.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.
2 MINIMUM QUALIFICATIONS

2.2.2 Application Architect: Must have at least five (5) years of experience designing medium to large-scale sites.

2.2.3 Computer Software/Integration Analyst: Must have at least five (5) years of experience performing requirements analysis for application development projects.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.
3 SCOPE OF OBJECTIVES

3.1 Background and Purpose

This project will replace the legacy application that is currently being used across the State, with a more scalable solution aimed at improving DHR business operations by eliminating inefficient business processes and workarounds. The purpose of this project is to procure a robust financial management solution that provides advanced security, performance, and user experience, in accordance with the State’s business need and requirements. The Department is seeking the recommendation of prospective bidders for the most optimal solution that can take the form of either a vendor-hosted SaaS solution or a State managed COTS solution.

As part of the evaluation of the proposal for this RFP, Offerors shall propose exactly three (3) key resources and shall describe in a Staffing Plan how additional resources shall be acquired to meet the needs of DHR. All other planned positions shall be described generally in the Staffing Plan, and may not be used as evidence of fulfilling company or personnel minimum qualifications.

3.2 Agency / Project Background

The legacy AFS is a computerized fiscal tracking system that is used statewide by local finance offices, allowing users to perform a number of accounting tasks. The legacy AFS allows users to setup, print, and track payments for various vendors—including payments to foster care providers—while maintaining a history of all financial transactions. The legacy AFS also provides the capability to generate a number of fiscal reports and annual 1099 data that is subsequently uploaded into the State’s Financial Management Information System (FMIS) via a manual mainframe batch load process.

The legacy AFS was developed using Delphi, a programming language based on object Pascal programming methods. While Delphi was regarded as a very promising development platform that provided rich connectivity options to relational databases, it became increasingly restrictive and inflexible for the State to maintain. Requests for minor application changes were often costly to implement, and specialized programming skills were required to accommodate even minor requests for modification. Given the limitation of the technology suite upon which the legacy AFS application was built, it is not able to easily adjust to new workflows and the adoption of newer technologies that will provide the State scalability and room for growth. To address these concerns, the State initiated the legacy AFS modernization project through the OTHS. The aim of the project is to deploy a scalable application leveraging more robust application programming technologies, using proven field-tested principles, tools, and methods as embodied in the Scaled Agile Framework (SAFe).

The implementation of the project will ultimately provide the following primary benefits:

1. Reduced maintenance costs associated with the upkeep of a legacy application and supporting infrastructure environments;
2. Improved check processing workflows and the reduction of manual processes that sometimes result in departmental inefficiencies and compromised data integrity;
3. The deployment of a scalable application with a modern and flexible user interface;
4. Advanced reporting capabilities that provide standard built-in reports, and the ability to generate user customizable ad-hoc financial reports;
5. A modern graphical user interface with value-added tools that will improve usability and efficiency; and
6. Access to tools intended to eliminate workarounds, improve business processes, and consolidate financial information, ultimately resulting in increased productivity and service quality offered by DHR to its many customers.

### 3.3 General Requirements

#### 3.3.1 Required Project Policies, Guidelines and Methodologies

The Contractor shall be required to comply with all applicable laws, regulations, policies, standards and guidelines affecting Information Technology projects, which may be created or changed periodically. It is the responsibility of the Contractor to ensure adherence, and to remain abreast of new or revised laws, regulations, policies, standards and guidelines affecting the project’s execution, including but not limited to the following:

A. SAFe version 4.0. Additional information is available at: [http://doit.maryland.gov/SDLC/Pages/altMethods.aspx](http://doit.maryland.gov/SDLC/Pages/altMethods.aspx), under ‘Agile Alternatives’

#### 3.3.2 Project Methodology

The State is adopting an enterprise Agile development and implementation methodology. An Agile approach is an approach in which teams deliver business value in the form of working functionality early and often. This is done through close collaboration with functional stakeholders, breakdown and prioritization of work, frequent delivery of high-quality, demonstrable solution increments, and a focus on SAFe principles. The State is in the process of adopting the SAFe across projects and programs managed by DoIT. The Offeror is required to adopt a similar Agile approach in addressing and delivering the AFS Solution.

#### 3.3.3 Any IT services personnel provided under this RFP shall maintain any required professional certifications for the duration of the Contract.

#### 3.3.4 Contractor Transition-In Requirements

A. Develop and submit an implementation schedule that details all relevant activities for the first 3 months of deployment of the new AFS. The implementation schedule will be progressively elaborated as the new AFS is deployed.

B. Make the new AFS available to the State project team for user acceptance testing, in order to ensure that all core functionalities are readily accessible for production use.
C. Facilitate data migration from the legacy AFS application into the new AFS application.

D. Develop conversion routines for batch data import from the State’s legacy application.

E. Execute validation routines to ensure that data has been migrated successfully.

F. Facilitate user acceptance test to ensure that legacy data has been loaded correctly and is being displayed in accordance to DHR policy.

G. Facilitate the acceptance and deployment of the new production AFS with new DHR datasets.

3.3.5 Transition-Out Requirements

In order to ensure business continuity and to minimize service interruption to DHR’s internal and external users, the Contractor shall perform the following transition-out activities at the conclusion of the Contract:

A. Provide a Transition-Out plan 120 Business Days in advance of Contract end date that defines all processes and activities, e.g., technical, business and administrative, to ensure effective and efficient end of Contract transition to a successor contractor for up to 120 days prior to Contract end, consisting of:
   a. 60-day processing support as back up to the successor contractor;
   b. The provision of sufficient experienced personnel during this transition-out period to ensure an efficient and smooth transition; and
   c. Provide additional services if requested to complete the transition successfully.

B. Facilitate DHR scheduled discussions around data migration activities at the end of the Contract. Activities may include the extraction of data from legacy system repositories in order to facilitate the translation and loading of data into a new production system. DHR will oversee the transition-out phase and coordinate discussions and or implementation of the replacement system.

C. Update all relevant system documentation to the latest versions of all relevant documentation and custom code, participate in any transition-out meetings with the State and the successor contractor, and provide access to DHR assigned resources for transition planning.

D. Provide an official handoff report 10 business days before the Contract end date detailing points of contact (technical and administrative contacts along with their various roles), current issues and mitigation, and a complete set of system and operational documentation.

3.3.6 Export, Backup, Disaster Recovery (DR)

The Department will be responsible for all data export, backup, and data recovery for a State managed COTS implementation; however, for SaaS implementations, the following shall apply:

Export/Import
As in the case for a SaaS implementation, the Contractor shall provide to the State the ability to import/export data at will, including data to/from third parties. If Contractor provides the State the ability to export data, access and instructions shall be provided. If Contractor intends to perform export data on the State’s behalf, Contractor shall perform an export of State data within 24 hours of a request.

Backups

The Contractor shall:

A. Perform backups of the web, application, and database servers on a regular basis to safeguard against data loss. This shall include daily incremental backups and full weekly backups of all volumes of servers.

B. Retain daily backups for one month, and weekly backups for two years on online storage by the Contractor.

2. Apply hardware and software hardening procedures as recommended by the manufacturer to reduce the System’s surface of vulnerability. The purpose of system hardening is to eliminate as many security risks as possible. This is typically done by removing all non-essential software programs and utilities from the computer.
These procedures may include but are not limited to removal of unnecessary software, disabling or removing of unnecessary services, the removal of unnecessary usernames or logins, and the deactivation of unneeded features in the System configuration files.

3. Ensure that State data is not comingled with the Contractor’s and/or Subcontractor’s other clients’ data through the proper application of compartmentalization security measures. This includes but is not limited to classifying data elements and controlling access to those elements based on the classification and a user’s access or security level.

4. Apply data encryption to protect State data, especially Sensitive Data, from improper disclosure or alteration. Data encryption should be applied to State data in transit over networks and, where possible, State data at rest within the System; as well as to State data when archived for backup purposes. Encryption algorithms which are utilized for this purpose must comply with current Federal Information Processing Standards (FIPS), “Security Requirements for Cryptographic Modules”, FIPS PUB 140-2. (csrc.nist.gov/publications/fips/fips140-2/fips1402.pdf).

Enable appropriate logging parameters on systems supporting the System to monitor User access activities, authorized and failed access attempts, system exceptions, and critical information security events as recommended by the operating system and application manufacturers and information security standards, including IRS Safeguards – Publication 1075 (www.irs.gov/Forms-&-Pubs). Retain the aforementioned logs and review them at least daily to identify suspicious or questionable activity for investigation, documenting their cause and perform remediation, if required.

6. Ensure System and network environments are separated by properly configured and updated firewalls to preserve the protection and isolation of State data from unauthorized access as well as the separation of production and non-production environments.

7. Retain the aforementioned logs and review them at least daily to identify suspicious or questionable activity for investigation and documentation as to their cause and remediation, if required. The Department shall have the right to inspect these policies and procedures and the Contractor or subcontractor’s performance to confirm the effectiveness of these measures for the services being provided under this Contract.

8. Restrict network connections between trusted and untrusted networks by physically and/or logically isolating systems supporting the System from unsolicited and unauthenticated network traffic.

9. Conduct weekly reviews of network connections, documenting and confirming the business justification for the use of all service, protocols, and ports allowed, including the rationale or compensating controls implemented for those protocols considered insecure but necessary.

10. Establish policies and procedures to implement and maintain mechanisms for internal vulnerability testing of operating system, application, and network devices.
supporting the System. Such testing is intended to identify outdated software versions; missing software patches; device or software mis-configurations; and to validate compliance with or deviations from the Contractor’s and/or Subcontractor’s security policy. Contractor and/or Subcontractor shall evaluate all identified vulnerabilities for potential adverse effect on the system’s security and integrity and remediate the vulnerability promptly or document why remediation action is unnecessary or unsuitable. DHR shall have the right to inspect these policies and procedures and the performance of vulnerability testing to confirm the effectiveness of these measures for the services being provided by the Contractor and/or Subcontractors.

11. Contractor and/or Subcontractor(s) shall conduct external vulnerability testing at least on a monthly basis. External vulnerability testing is an assessment designed to examine the Contractor and/or Subcontractor’s security profile from the Internet without benefit of access to internal systems and networks behind the external security perimeter. Contractor and/or Subcontractor shall evaluate all identified vulnerabilities on Internet-facing devices for potential adverse effect on the system’s security and integrity and remediate the vulnerability promptly or document why remediation action is unnecessary or unsuitable. DHR shall have the right to inspect these policies and procedures and the performance of vulnerability testing to confirm the effectiveness of these measures for the services being provided.

12. Ensure that: anti-virus and anti-malware software is installed and maintained on all systems supporting the System services, the anti-virus and anti-malware software is automatically updated, and that the software is configured to actively scan and detect threats to the system for remediation.

13. Enforce strong user authentication and password control measures to minimize the opportunity for unauthorized access to Sensitive Data through compromise of the user access controls. Minimum measures are outlined in the IRS Safeguards – Publication 1075 (www.irs.gov/Forms-&-Pubs), including specific requirements for password length, complexity, history, and account lockout. Ensure Sensitive Data under this service is not processed, transferred, or stored outside of the United States.

3.6.2 Non-Business Hours Support: After hours support, including evenings, overnight and weekends, may be necessary to respond to IT Security emergency situations and in the performance of planned activities.

3.6.3 State-Mandated Service Reduction Days: Contractor personnel shall be required to participate in the State-mandated Service Reduction Days as well as State Furlough Days.
In this event, the Contractor will be notified in writing by the Contract Manager of these details.

3.6.4 Minimum and Maximum Hours: Full-time Contractor personnel shall work 40 hours per week with starting and ending times as approved by the Contract Manager. A flexible work schedule may be used with Contract Manager approval, including time to support any efforts outside core business hours. Contractor personnel may also be requested to restrict the number of hours Contractor personnel can work within a given period of time that may result in less than an eight hour day or less than a 40 hour work week.

3.6.5 Vacation Hours: Requests for leave shall be submitted to the Contract Manager at least two weeks in advance. The Contract Manager reserves the right to request a temporary replacement if leave extends longer than one consecutive week. In cases where there is insufficient coverage, a leave request may be denied.

### 3.7 Problem Escalation Procedure

3.7.1 The Contractor shall provide and maintain a Problem Escalation Procedure (PEP) for both routine and emergency situations. The PEP must state how the Contractor will address problem situations as they occur during the performance of the Contract, especially problems that are not resolved to the satisfaction of the State within appropriate timeframes.

3.7.2 The Contractor shall provide contact information to the Contract Manager, as well as to other State personnel, as directed should the Contract Manager not be available.

3.7.3 The Contractor shall provide the PEP no later than ten (10) Business Days after notice of recommended award. The PEP, including any revisions thereto, shall also be provided within ten (10) Business Days after the start of each Contract year and within ten (10) Business Days after any change in circumstance which changes the PEP. The PEP shall detail how problems with work under the Contract will be escalated in order to resolve any issues in a timely manner. The PEP shall include:

A. The process for establishing the existence of a problem;

B. The maximum duration that a problem may remain unresolved at each level in the Contractor’s organization before automatically escalating the problem to a higher level for resolution;

C. Circumstances in which the escalation will occur in less than the normal timeframe;

D. The nature of feedback on resolution progress, including the frequency of feedback to be provided to the State;

E. Identification of, and contact information for, progressively higher levels of personnel in the Contractor’s organization who would become involved in resolving a problem;

F. Contact information for persons responsible for resolving issues after normal business hours (e.g., evenings, weekends, holidays) and on an emergency basis; and

G. A process for updating and notifying the Contract Manager of any changes to the PEP.
Nothing in this section shall be construed to limit any rights of the Contract Manager or the State which may be allowed by the Contract or applicable law.

### 3.8 Work Order Process

A. The Department recognizes that not all implementation related activities are fully known at the time of contract execution, and that additional services or resources within the scope of the Contract may be required to fully implement the project. In order to meet these unanticipated activities, the Department will work with the Contractor through a Work Order process. Additional project related services will be governed by Agile development practices, and may include custom development, configuration, migration, and/or integration with other DHR legacy applications. Work shall not begin in advance of a fully executed Work Order. The Contract Manager shall e-mail a Work Order Request (See Attachment T) to the Contractor to provide services or resources that are within the scope of this RFP. The Work Order Request will include:

1. Technical requirements and description of the service or resources needed
2. Performance objectives and/or deliverables, as applicable
3. Due date and time for submitting a response to the request, and
4. Required place(s) where work must be performed

B. The Contractor shall e-mail a response to the Contract Manager within the specified time and include at a minimum:

1. A response that details the Contractor’s understanding of the work;
2. A price to complete the Work Order Request using the format provided in Attachment T;
3. A description of proposed resources required to perform the requested tasks, with the labor categories listed in accordance with Attachment F;
4. An explanation of how tasks shall be completed. This description shall include proposed subcontractors and related tasks;
5. State-furnished information, work site, and/or access to equipment, facilities, or personnel; and
6. The proposed personnel resources, including any subcontractor personnel, to complete the task.

C. For a T&M Work Order, the Contract Manager will review the response and will confirm the proposed labor rates are consistent with this RFP. For a fixed price Work Order, the Contract Manager will review the response and will confirm the proposed prices are acceptable.

D. The Contract Manager may contact the Contractor to obtain additional information, clarification or revision to the Work Order, and will provide the Work Order to the Procurement Officer for a determination of compliance with the Contract and
determination whether a change order is appropriate. Written Procurement Officer approval is required before Work Order execution by the State.

E. Proposed personnel on any type of Work Order shall be approved by the Contract Manager. The Contractor shall furnish resumes of proposed personnel specifying the labor category(ies) proposed. The Contract Manager shall have the option to interview the proposed personnel and, in the event of an interview or not, shall notify the Contractor of acceptance or denial of the personnel.

F. Performance of services under a Work Order shall commence consistent with an NTP issued by the Contract Manager for such Work Order.

3.9 Insurance Requirements

3.9.1 Any insurance furnished as a condition of this Contract shall be issued by a company authorized to business in this State.

3.9.2 Insurance shall be provided as specified in the Contract (Attachment A). The recommended awardee must provide a certificate(s) of insurance with the prescribed coverages, limits and requirements set forth in this Section 3.9 “Insurance Requirements,” within five (5) Business Days from notice of recommended award. During the period of performance for multi-year contracts the Contractor shall update certificates of insurance annually, or as otherwise directed by the Contract Manager.

3.9.2 The following type(s) of insurance and minimum amount(s) of coverage are required:

General Liability - The Contractor shall maintain Commercial General Liability Insurance with limits sufficient to cover losses resulting from, or arising out of, action or inaction in the performance of the Contract by the Contractor, its agents, servants, employees, or subcontractors, but no less than a Combined Single Limit for Bodily Injury, Property Damage, and Personal and Advertising Injury Liability of $1,000,000 per occurrence and $3,000,000 aggregate.

Errors and Omissions/Professional Liability - The Contractor shall maintain Errors and Omissions/Professional Liability insurance with minimum limits of $1,000,000 per occurrence.

Cyber Security / Data Breach Insurance - The Contractor shall maintain Cyber Security / Data Breach Insurance in the amount of ten million dollars ($10,000,000) per occurrence. The coverage must be valid in all locations where work is performed or data or other information concerning the State’s claimants and/or employers is processed or stored.

Worker’s Compensation - The Contractor shall maintain such insurance as necessary and/or as required under Workers’ Compensation Acts, the Longshore and Harbor Workers’ Compensation Act, and the Federal Employers’ Liability Act. Coverage must be valid in all states where work is performed. One million dollars ($1,000,000) per occurrence (unless a state’s law requires a greater amount of coverage).

3.9.3 State Inclusion on Insurance
The State shall be listed as an additional insured on all policies with the exception of Worker’s Compensation Insurance and Professional Liability Insurance. All insurance policies shall be endorsed to include a clause that requires that the insurance carrier provide the Contract Manager, by certified mail, not less than 45 days’ advance notice of any non-renewal, cancellation, or expiration. In the event the Contract Manager receives a notice of non-renewal, the Contractor shall provide the Contract Manager with an insurance policy from another carrier at least 30 days prior to the expiration of the insurance policy then in effect. All insurance policies shall be with a company licensed by the State to do business and to provide such policies.

3.9.4 Subcontractor Insurance

The Contractor shall require that any subcontractors providing products/services under this Contract obtain and maintain similar levels of insurance and shall provide the Contract Manager with the same documentation as is required of the Contractor.

3.9.5 Employee Theft Insurance

The Contractor shall maintain Employee Theft Insurance with minimum limits of $1,000,000 per occurrence.

3.10 Invoicing

3.10.1 Invoices related to COTS implementations will be provided at the time of contract award. Invoice will stipulate the number of seat licenses, in addition to required services to implement/deploy/install the application within the State’s infrastructure. Any additional considerations and/or requirements will be stipulated at the time of invoicing.

3.10.2 Invoices related to SaaS implementations shall be submitted as shown in the table below.

A. The amount invoiced is inconsistent with the Contract;
B. The proper invoice has not been received by the party or office specified in the Contract;
C. The invoice or performance is in dispute or the Contractor has failed to otherwise comply with the provisions of the Contract;
D. The item or services have not been accepted;

I. The Contractor has not submitted satisfactory documentation or other evidence reasonably required by the Procurement Officer or by the Contract Manager concerning performance under the contract and compliance with its provisions.

3.11 SOC 2 Type II Audit Report

3.11.1 The Contractor and/or Subcontractors who provide SaaS services that handle Sensitive Data (see Handle definition in 1.2) for the AFS must also comply with all clauses within this section “SOC 2 Type II Audit Report”, assuming the Contractor and/or Subcontractor receives copies of any data for use in providing services, including any system and/or user acceptance testing of the new System and any provided data that contains Sensitive Data.

3.11.2 The Contractor shall have an annual audit performed by an independent audit firm of the Contractor and/or Subcontractors’ handling of the DHR’s critical functions and/or Sensitive Data, and shall address all areas relating to information technology security and operational processes. These services provided by the Contractor and/or Subcontractors that shall be covered by the audit will collectively be referred to as the “Information Functions and/or Processes.” Such audits shall be performed in accordance with audit guidance: Reporting on Controls at a Service Organization Relevant to Security, Availability, Processing Integrity, Confidentiality, or Privacy (SOC 2) as published by the American Institute of Certified Public Accountants (AICPA) and as updated from time to time, or according to the most current audit guidance promulgated by the AICPA or similarly-recognized professional organization, as agreed to by the DHR, to assess the security of outsourced client functions or data (collectively, the “Guidance”) as follows:

3.11.3 The type of audit to be performed in accordance with the Guidance is a SOC 2 Type 2 Audit (referred to as the “SOC 2 Report”). The initial SOC 2 Report audit shall be scheduled and completed within a timeframe to be specified by the State and submitted to the Contract.
Manager. All subsequent SOC 2 audits that are arranged after this initial audit shall be performed on an annual basis and shall be submitted to the Contract Manager by April 1 for the preceding calendar year.

3.11.4 The SOC 2 Report shall report on the description of the Contractor and/or Subcontractors’ control measures and the suitability of the design and operating effectiveness of controls over the Information Functions and/or Processes relevant to the following trust principles: Security, Availability, and Confidentiality as defined in the aforementioned Guidance. The SOC 2 Report should also report on the suitability of the design and operating effectiveness of controls of the Information Functions and/or Processes to meet the requirements of the contract, specifically the security requirements identified in Section 3.4.

3.11.5 The audit scope of each year’s SOC 2 Report may need to be adjusted (including the inclusion or omission of the relevant trust services principles of Security, Availability, Confidentiality, Processing Integrity, and Privacy) to accommodate any changes to the Contractor’s and/or Subcontractors’ environment since the last SOC 2 Report. Such changes may include but are not limited to the addition of Information Functions and/or Processes through change orders or Work Orders under the Contract; or, due to changes in information technology or operational infrastructure implemented by the Contractor and/or Subcontractors. The Contractor and/or Subcontractors shall ensure that the audit scope of each year’s SOC 2 Report engagement shall accommodate these changes by including in SOC 2 Report all appropriate controls related to the current environment supporting the Information Functions and/or Processes, including those controls required by the Contract.

3.11.6 The scope of the SOC 2 Report shall include work performed by any Subcontractors that provide essential support to the Contractor and/or the essential support to the Information Functions and/or Processes provided to the DHR or the State under the Contract. The Contractor and/or Subcontractors shall ensure the performance of the SOC 2 Audit includes these Subcontractor(s) in the performance of the SOC 2 Report.

3.11.7 All SOC 2 Reports, including those of the Contractor and/or Subcontractor, shall be performed at no additional expense to the Department.

3.11.8 The Contractor and/or Subcontractors shall promptly provide a complete copy of the final SOC 2 Report to the Contract Manager upon completion of each annual SOC 2 Report engagement.

3.11.9 The Contractor shall provide to the Contract Manager, within 30 calendar days of the issuance of each annual final SOC 2 Report, a documented corrective action plan which addresses each audit finding or exception contained in the SOC 2 Report. The corrective action plan shall identify in detail the remedial action to be taken by the Contractor and/or Subcontractors along with the date(s) when each remedial action is to be implemented.

3.11.10 If the Contractor and/or Subcontractors currently have an annual information security assessment performed that includes the operations, systems, and repositories of the products/services being provided to the DHR under the Contract, and if that assessment generally conforms to the content and objective of the Guidance, the DHR will determine in consultation with appropriate State government technology and audit authorities whether the
Contractor and/or Subcontractors’ current information security assessments are acceptable in lieu of the SOC 2 Report.

3.11.11 If the Contractor and/or Subcontractors fail during the Contract term to obtain an annual SOC 2 Report by the date specified in 3.11.2, DHR shall have the right to retain an independent audit firm to perform an audit engagement of a SOC 2 Report of the Information Functions and/or Processes being provided by the Contractor and/or Subcontractors. The Contractor and/or Subcontractors agree to allow the independent audit firm to access its facility/ies for purposes of conducting this audit engagement(s), and will provide the support and cooperation to the independent audit firm that is required to perform the SOC 2 Report. DHR will invoice the Contractor for the expense of the SOC 2 Report(s), or deduct the cost from future payments to the Contractor.

3.12 Service Level Agreements (SLA)

3.12.1 Service Level Agreements will only apply to contracts awarded as SaaS implementations. The State will be responsible for all service related items following the vendor’s initial setup and deployment of their COTS application codebase. Once the application has been initially deployed, the State will be responsible for customization, configuration, testing, and infrastructural provisioning for the COTS solution.

3.12.2 Service Level Agreement Liquidated Damages for SaaS implementations

Time is an essential element of the RFP and it is important that the work be vigorously prosecuted until completion. For work that is not completed within the time(s) specified in the performance measurements below, the Contractor shall be liable for liquidated damages in the amount(s) provided for in this Contract, provided, however, that due account shall be taken of any adjustment of specified completion time(s) for completion of work as granted by approved change orders and/or Work Orders.

The parties agree that any assessment of liquidated damages shall be construed and treated by the parties not as imposing a penalty upon the Contractor, but as liquidated damages to compensate the State for the Contractor’s failure to timely complete Contract work, including Work Orders.

3.12.3 SLA Effective Date (SLA Activation Date) for SaaS implementations

SLAs set forth herein shall be in effect beginning with the SLA Activation Date. Contractor shall be responsible for complying with all performance measurements and shall also ensure compliance by all Subcontractors.

Beginning on the SLA Activation Date, for any performance measurement not met during the monthly reporting period, the SLA credit for that individual measurement shall be applied to the corresponding invoice for the month in which it is submitted.

3.12.4 Service Level Reporting for SaaS implementations

The Contractor shall provide detailed monthly reports evidencing the attained level for each SLA set forth herein. Monthly reports shall be available within the first 10 calendar days of each month.
The Contract Manager or designee will monitor and review Contractor performance standards on a monthly basis, based on Contractor-provided reports for this Contract. The Contractor shall provide a monthly summary report for SLA performance via e-mail to the Contract Manager.

If any of the performance measurements are not met during the monthly reporting period, the Contract Manager or designee will notify the Contractor of the standard that is not in compliance.

3.12.5 Credit for failure to meet SLA for SaaS implementations

Contractor’s failure to meet an SLA will result in a credit to the Monthly Charges payable by the State during the month of the breach. Example: If the Monthly Charges were $100,000 and one SLA with an applicable 4% credit was missed, the credit to the monthly invoice would be $4,000, and the State would pay a net amount of $96,000.

The credits will be cumulative for each missed service requirement. In the result of a catastrophic failure affecting the availability of the AFS, all affected SLAs shall be credited to the State. In no event shall the aggregate of all SLA credits paid to the State in any calendar month exceed 25% of the Monthly Charges.

The State shall have the unilateral right to reallocate percentages among the various SLAs annually on the anniversary of the Contract.

3.12.6 Root Cause Analysis for SaaS implementations

If the same SLA measurement yields an SLA credit more than once within any consecutive six-month period, the Contractor shall conduct a root cause analysis and take all corrective steps to prevent reoccurrence.

Proposals will be evaluated to assess the benefit to Maryland’s economy specifically offered. See COMAR 21.05.03.03A(3).

B. Proposals that identify specific benefits as being contractually enforceable commitments will be rated more favorably than Proposals that do not identify specific benefits as contractual commitments, all other factors being equal.

C. Offerors shall identify any performance guarantees that will be enforceable by the State if the full level of promised benefit is not achieved during the Contract term.

D. As applicable, for the full duration of the Contract, including any renewal period, or until the commitment is satisfied, the Contractor shall provide to the Procurement Officer or other designated agency personnel reports of the actual attainment of each benefit listed in response to this section. 2. descriptions of the number of Offeror employees located in Maryland other than those that will be performing work under this Contract; or

Each Volume shall contain an unbound original, so identified, and six (6) copies.
Unless the resulting package will be too unwieldy, the State’s preference is for the two (2) sealed Volumes to be submitted together in a single package to the Procurement Officer including a label bearing:

Except for the reproduced sections of the solicitation document, the text size shall be no less than 12 points. Use at least 1/2” inch margins on the top and bottom and side margins. 4.5 Proposal Delivery

4.5.1 Offerors may submit proposals by mail or via hand delivery as described below to the address provided in the Key Information Summary Sheet. Proposals delivered by e-mail or facsimile shall not be considered.

4.5.2

A. For U.S. Postal Service deliveries, any Proposal that has been received at the appropriate mailroom, or typical place of mail receipt, for the respective procuring unit by the time and date listed in the RFP will be deemed to be timely. If an Offeror chooses to use the U.S. Postal Service for delivery, DHR recommends that it use Express Mail, Priority Mail, or Certified Mail only as these are the only forms for which both the date and time of receipt can be verified by DHR. An Offeror using first class mail will not be able to prove a timely delivery at the mailroom, and it could take several days for an item sent by first class mail to make its way by normal internal mail to the procuring unit.

B. Hand-delivery includes delivery by commercial carrier acting as agent for the Offeror. For any type of direct (non-mail) delivery, Offerors are advised to secure a dated, signed, and time-stamped (or otherwise indicated) receipt of delivery.

4.5.3 The Procurement Officer must receive all Technical and Financial Proposal material by the RFP due date and time specified in the Key Information Summary Sheet. Requests for extension of this date or time will not be granted. Except as provided in COMAR 21.05.03.02F, Proposals received by the Procurement Officer after the due date will not be considered.

5 EVALUATION CRITERIA AND PROCEDURE

5.1 Evaluation Committee

Evaluation of Proposals will be performed in accordance with COMAR 21.05.03 by a committee established for that purpose and based on the evaluation criteria set forth below. The Evaluation Committee will review Proposals, participate in Offeror oral presentations and discussions, and provide input to the Procurement Officer. DHR reserves the right to utilize the services of individuals outside of the established Evaluation Committee for advice and assistance, as deemed appropriate.

5.2 Technical Proposal Evaluation Criteria

The criteria to be used to evaluate each Technical Proposal are listed below in descending order of importance. Unless stated otherwise, any sub-criteria within each criterion have equal weight.

5.2.1 Offeror’s Technical Response to RFP Requirements and Work Plan (See RFP § 4.2.2.6)

The State prefers an Offeror’s response to work requirements in the RFP that illustrates a comprehensive understanding of work requirements and mastery of the subject matter, including an explanation of how the work will be performed. Proposals which include limited responses to work requirements such as “concur” or “will comply” will receive a lower ranking than those proposals that demonstrate an understanding of the work requirements and include plans to meet or exceed them.

5.2.2 The degree of completeness of functional capabilities the Offeror’s solution that is able to meet the State’s business requirements/needs with the least number of customizations.

5.2.3 The overall experience, capability and references for the Offeror’s team as described in the Offeror’s Technical Proposal.

5.2.4 Experience and Qualifications of Proposed Staff (See RFP § 4.2.2.7)

5.2.5 Offeror Qualifications and Capabilities, including proposed subcontractors (See RFP § 4.2.2.8 – 4.4.2.14)

5.2.6 Economic Benefit to State of Maryland (See RFP § 4.2.2.15)

5.3 Financial Proposal Evaluation Criteria

All Qualified Offerors will be ranked from the lowest (most advantageous) to the highest (least advantageous) price based on the Total Evaluated Price within the stated guidelines set forth in this RFP and as submitted on Attachment F - Price Sheet.

5.4 Reciprocal Preference

Although Maryland law does not authorize procuring agencies to favor resident Offerors in awarding procurement contracts, many other states do grant their resident businesses preferences over Maryland contractors. COMAR 21.05.01.04 requires that procuring units apply a reciprocal preference under the following conditions:
A. The most advantageous offer is from a responsible Offeror whose headquarters, principal base of operations, or principal site that will primarily provide the products/services required under this RFP is in another state.

B. The other state gives a preference to its resident businesses through law, policy, or practice; and

C. The preference does not conflict with a Federal law or grant affecting the procurement Contract.

The preference given shall be identical to the preference that the other state, through law, policy, or practice gives to its resident businesses.

5.5 **Selection Procedures**

5.5.1 General

A. The Contract will be awarded in accordance with the Competitive Sealed Proposals (CSP) method found at COMAR 21.05.03. The CSP method allows for the conducting of discussions and the revision of Proposals during these discussions. Therefore, the State may conduct discussions with all Offerors that have submitted Proposals that are determined to be reasonably susceptible of being selected for contract award or potentially so. However, the State reserves the right to make an award without holding discussions.

B. In either case (i.e., with or without discussions), the State may determine an Offeror to be not responsible and/or an Offeror’s Proposal to be not reasonably susceptible of being selected for award at any time after the initial closing date for receipt of Proposals and prior to Contract award. If the State finds an Offeror to be not responsible and/or an Offeror’s Technical Proposal to be not reasonably susceptible of being selected for award, that Offeror’s Financial Proposal will be returned if the Financial Proposal is unopened at the time of the determination.

5.5.2 Selection Process Sequence

A. A determination is made that the MDOT Certified MBE Utilization and Fair Solicitation Affidavit (Attachment D-1A) is included and is properly completed, if there is a MBE goal. In addition, a determination is made that the Veteran-Owned Small Business Enterprise (VSBE) Utilization Affidavit and Subcontractor Participation Schedule (Attachment N-1) is included and is properly completed, if there is a VSBE goal.

B. Technical Proposals are evaluated for technical merit and ranked. During this review, oral presentations and discussions may be held. The purpose of such discussions will be to assure a full understanding of the State’s requirements and the Offeror’s ability to perform the services, as well as to facilitate arrival at a Contract that is most advantageous to the State. Offerors will be contacted by the State as soon as any discussions are scheduled.

C. Offerors must confirm in writing any substantive oral clarifications of, or changes in, their Technical Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror’s Technical Proposal. Technical Proposals are given a final review and ranked.

D. The Financial Proposal of each Qualified Offeror (a responsible Offeror determined to have submitted an acceptable Proposal) will be evaluated and ranked separately from the Technical
evaluation. After a review of the Financial Proposals of Qualified Offerors, the Evaluation Committee or Procurement Officer may again conduct discussions to further evaluate the Offeror’s entire Proposal.

E. When in the best interest of the State, the Procurement Officer may permit Qualified Offerors to revise their initial Proposals and submit, in writing, Best and Final Offers (BAFOs). The State may make an award without issuing a request for a BAFO. Offerors may only perform limited substitutes of proposed personnel (see Section 1.23.F Substitution Prior to and Within 30 Days After Contract Execution).

5.5.3 Award Determination

Upon completion of the Technical Proposal and Financial Proposal evaluations and rankings, each Offeror will receive an overall ranking. The Procurement Officer will recommend award of the Contract to the responsible Offeror that submitted the Proposal determined to be the most advantageous to the State. In making this most advantageous Proposal determination, technical factors will receive equal weight with financial factors.

5.6 Documents Required upon Notice of Recommended Award

Upon receipt of notice of recommended award, the following documents shall be completed, signed if applicable with original signatures, and submitted by the recommended awardee within five (5) Business Days, unless noted otherwise. Submit three (3) copies of each of the following documents:

A. Contract (Attachment A),

Contractor-provided SaaS service infringes, misappropriates or otherwise violates any third-party intellectual property rights. Contractor shall not enter into any settlement involving third party claims that contains any admission of or stipulation to any guilt, fault, liability or wrongdoing by the State or that adversely affects the State’s rights or interests, without the State’s prior written consent.

5.4 Contractor shall be entitled to control the defense or settlement of such claim provided that the State will, upon requesting indemnification hereunder: (a) provide reasonable cooperation to Contractor in connection with the defense or settlement of any such claim, at Contractor’s expense; and (b) be entitled to participate in the defense of any such claim at its own expense.

5.5 Except if Contractor has pre-existing knowledge of such infringement, Contractor’s obligations under this section will not apply to the extent any third-party intellectual property infringes, misappropriates or otherwise violates any third party intellectual rights as a result of modifications made by the State, Department in violation of the license granted to the State, Department pursuant to section 5.2 or which were not approved by Contractor, including (i) the combination, operation or use of the service (including SaaS) or deliverable in connection with a third-party product or service not introduced by the Contractor (the combination of which causes the infringement); or (ii) Contractor’s compliance with the written specifications or directions of the State, Department to incorporate Third-Party Software or other materials which causes infringement.

5.9 Without limiting the generality of the foregoing, neither Contractor nor any of its subcontractors shall use any Software or technology in a manner that will cause any patents, copyrights or other intellectual property which are owned or controlled by the State or any of its affiliates (or for which the State or any of its subcontractors has received license rights) to become subject to any encumbrance or terms and conditions of any third-party or open source license (including, without limitation, any open source license listed on http://www.opensource.org/licenses/alphabetical ) (each an “Open Source License”). These restrictions, limitations, exclusions and conditions shall apply even if the State or any of its...
subcontractors becomes aware of or fails to act in a manner to address any violation or failure to comply therewith. No act by the State or any of its subcontractors that is undertaken under this Contract as to any Software or technology shall be construed as intending to cause any patents, copyrights or other intellectual property that are owned or controlled by the State (or for which the State has received license rights) to become subject to any encumbrance or terms and conditions of any Open Source License.

5.10 The Contractor shall report to the Department, promptly and in written detail, each notice or claim of copyright infringement received by the Contractor with respect to all deliverables delivered under this Contract.

5.11 The Contractor shall not affix (or permit any third party to affix), without the Department’s consent, any restrictive markings upon any deliverables that are owned by the State, Department and if such markings are affixed, the Department shall have the right at any time to modify, remove, obliterate, or ignore such warnings.

6.5. Section 6 shall survive expiration of this Contract.

7. **Limitations of Liability**

Third-party claims arising under Section 6 (“Indemnification”) of this Contract are included in this limitation of liability only if the State is immune from liability. Contractor’s liability for third-party claims arising under Section 6 of this Contract shall be unlimited if the State is not immune from liability for claims arising under Section 6.

7.1.4. In no event shall the existence of a subcontract operate to release or reduce the liability of Contractor hereunder. For purposes of this Contract, Contractor agrees that all Subcontractors shall be held to be agents of Contractor.

If the General Assembly fails to appropriate funds or if funds are not otherwise made available for continued performance for any fiscal period of this Contract succeeding the first fiscal period, this Contract shall be canceled automatically as of the beginning of the fiscal year for which funds were not appropriated or otherwise made available; provided, however, that this will not affect either the State's rights or the Contractor's rights under any termination clause in this Contract. The effect of termination of the Contract hereunder will be to discharge both the Contractor and the State of Maryland from future performance of the Contract, but not from their rights and obligations existing at the time of termination. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the Contract. The State shall notify the Contractor as soon as it has knowledge that funds may not be available for the continuation of this Contract for each succeeding fiscal period beyond the first.

Except as otherwise provided in this Contract, if any change under this section causes an increase or decrease in the Contractor’s cost of, or the time required for, the performance of any part of the work, an equitable adjustment in the Contract price shall be made and the Contract modified in writing accordingly. Pursuant to COMAR 21.10.04, the Contractor must assert in writing its right to an adjustment under this section and shall include a written statement setting forth the nature and cost of such claim. If the Contractor fails to fulfill its obligations under this Contract properly and on time, or otherwise violates any provision of the Contract, the State may terminate the Contract by written notice to the Contractor. The notice shall specify the acts or omissions relied upon as cause for termination. All finished or unfinished work provided by the Contractor shall, at the State's option, become the State's property. The State of Maryland shall pay the Contractor fair and equitable compensation for satisfactory performance prior to receipt of notice of termination, less the amount of damages caused by the Contractor's breach. Pending resolution of a claim, the Contractor shall proceed diligently with the performance of the Contract in accordance with the Procurement Officer's decision. Unless a lesser period is provided by applicable statute, regulation, or the Contract, the Contractor must file a written notice of claim with the Procurement Officer within 30 days after the basis for the claim is known or should have been known, whichever is earlier. Contemporaneously with or within 30 days of the filing of a notice of claim, but no later than the

As part of such compliance, Contractor may not discriminate on the basis of race, color, religion, ancestry, national origin, sex, age, marital status, sexual orientation, sexual identity, disability, or other unlawful forms of discrimination in the solicitation, selection, hiring, or commercial treatment of subcontractors, vendors, suppliers, or commercial customers, nor shall Contractor retaliate against any person for reporting instances of such discrimination. Contractor shall provide equal opportunity for subcontractors, vendors, and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that this clause does not prohibit or limit lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the marketplace. Contractor understands that a material violation of this clause shall be considered a material breach of this Agreement and may result in termination of this Contract, disqualification of Contractor from participating in State contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party.

R20.12.2. As a condition of entering into this Contract, upon the request of the Commission on Civil Rights, and only after the filing of a complaint against Contractor under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland, as amended from
time to time, Contractor agrees to provide within 60 days after the request a complete list of the names of all subcontractors, vendors, and suppliers that Contractor has used in the past four (4) years on any of its contracts that were undertaken within the State of Maryland, including the total dollar amount paid by Contractor on each subcontract or supply contract. Contractor further agrees to cooperate in any investigation conducted by the State pursuant to the State’s Commercial Nondiscrimination Policy as set forth under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland, and to provide any documents relevant to any investigation that are requested by the State. Contractor understands that violation of this clause is a material breach of this Contract and may result in Contract termination, disqualification by the State from participating in State contracts, and other sanctions.

R20.13. **Subcontracting and Assignment**

R20.13.1 The Contractor may not subcontract any portion of the products or services provided under this Contract without obtaining the prior written approval of the Procurement Officer, nor may the Contractor assign this Contract or any of its rights or obligations hereunder, without the prior written approval of the State, each at the State’s sole and absolute discretion. Any such subcontract or assignment shall include the terms of this Contract and any other terms and conditions that the State deems necessary to protect its interests. The State shall not be responsible for the fulfillment of the Contractor’s obligations to any subcontractors.

R20.13.2. **Subcontractor Disclosure**
The Contractor shall identify all of its strategic business partners related to products or services provided under this Contract, including but not limited to all subcontractors or other entities or individuals who may be a party to a joint venture or similar agreement with the Contractor, and who shall be involved in any application development and/or operations.

R20.14.1. **Establishment of Goal and Subgoals.**

An overall MBE subcontractor participation goal and subgoals have been established for this procurement as described in section 1.33 of the RFP.

R20.14.2. **Liquidated Damages for MBE program**

R20.14.2.1. This Contract requires the Contractor to make good faith efforts to comply with the MBE Program and Contract provisions. The State and the Contractor acknowledge and agree that the State will incur damages, including but not limited to loss of goodwill, detrimental impact on economic development, and diversion of internal staff resources, if the Contractor does not make good faith efforts to comply with the requirements of the MBE Program and MBE Contract provisions. The parties further acknowledge and agree that the damages the State might reasonably be anticipated to accrue as a result of such lack of compliance are difficult to ascertain with precision.

R20.14.2.2. Therefore, upon a determination by the State that the Contractor failed to make good faith efforts to comply with one or more of the specified MBE Program requirements or Contract provisions, the Contractor agrees to pay liquidated damages to the State at the rates set forth below. The Contractor expressly agrees that the State may withhold payment on any invoices as a set-off against liquidated damages owed. The Contractor further agrees that for each specified violation, the agreed upon liquidated
damages are reasonably proximate to the loss the State is anticipated to incur as a result of such violation.

i. Failure to submit each monthly payment report in full compliance with COMAR 21.11.03.13B (3): TBD per day until the monthly report is submitted as required.

ii. Failure to include in its agreements with MBE subcontractors a provision requiring submission of payment reports in full compliance with COMAR 21.11.03.13B (4): $<<insert value>> per MBE subcontractor.

iii. Failure to comply with COMAR 21.11.03.12 in terminating, canceling, or changing the scope of work/value of a contract with an MBE subcontractor and/or amendment of the MBE participation schedule: the difference between the dollar value of the MBE participation commitment on the MBE participation schedule for that specific MBE firm and the dollar value of the work performed by that MBE firm for the contract.

iv. Failure to meet the Contractor’s total MBE participation goal and sub goal commitments: the difference between the dollar value of the total MBE participation commitment on the MBE participation schedule and the MBE participation actually achieved.

v. Failure to promptly pay all undisputed amounts to an MBE subcontractor in full compliance with the prompt payment provisions of this Contract: $<<insert appropriate rate following calculation instructions from GOMA>> per day until the undisputed amount due to the MBE subcontractor is paid.

Notwithstanding the use of liquidated damages, the State reserves the right to terminate the Contract and exercise all other rights and remedies provided in the Contract or by law.

R20.14.3. MBE Prompt Pay Requirements

R20.14.3.1. To ensure compliance with certified MBE subcontract participation goals, the Department may, consistent with COMAR 21.11.03.13, take the following measures:

(1) Inspecting any relevant records of the Contractor;
(2) Inspecting the jobsite; and
(3) Interviewing subcontractors and workers.

(4) Verification shall include a review of:

B) If the Department determines that the Contractor is not in compliance with certified MBE participation goals, then the Department will notify the Contractor in writing of its findings, and will require the Contractor to take appropriate corrective action. Corrective action may include, but is not limited to, requiring the Contractor to compensate the MBE for work performed as set forth in the MBE participation schedule.

C) If the Department determines that the Contractor is in material noncompliance with MBE Contract provisions and refuses or fails to take the corrective action that the Department requires, then the Department may:

1. Terminate the Contract;
2. Refer the matter to the Office of the Attorney General for appropriate action; or
3. Initiate any other specific remedy identified by this Contract.

R20.14.3.2. Upon completion of the contract, but before final payment or release of retainage or both, the Contractor shall submit a final report, in affidavit form under the penalty of perjury, of all payments made to, or withheld from MBE subcontractors.

R20.15. Insurance Requirements

The Contractor shall maintain workers’ compensation coverage, property and casualty insurance, cyber liability insurance, and any other insurance as required in the RFP. The minimum limits of such policies must meet any minimum requirements established by law and the limits of insurance required by the RFP, and shall cover losses resulting from or arising out of Contractor action or inaction in the performance of services under the Contract by the Contractor, its agents, servants, employees or subcontractors. Effective no later than the date of execution of the Contract, and continuing for the duration of the Contract term, and any applicable renewal and transition periods, the Contractor shall maintain such insurance coverage and shall report such insurance annually or upon Contract renewal, whichever is earlier, to the Procurement Officer. The Contractor is required to notify the Procurement Officer in writing, if policies are cancelled or not renewed within five (5) days of learning of such cancellation and/or nonrenewal. ATTACHMENT D - MINORITY BUSINESS ENTERPRISE FORMS

MBE ATTACHMENT D-1A: MBE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT & MBE PARTICIPATION SCHEDULE

INSTRUCTIONS

PLEASE READ BEFORE COMPLETING THIS DOCUMENT

This form includes Instructions and the MBE Utilization and Fair Solicitation Affidavit & MBE Participation Schedule which must be submitted with the bid/proposal. If the Bidder/Offeror fails to accurately complete and submit this Affidavit and Schedule with the bid or proposal as required, the Procurement Officer shall deem the bid non-responsive or shall determine that the proposal is not reasonably susceptible of being selected for award.

1. Contractor shall structure its procedures for the performance of the work required in this Contract to attempt to achieve the minority business enterprise (MBE) subcontractor participation goal stated in the Invitation for Bids or Request for Proposals. Contractor agrees to exercise good faith efforts to carry out the requirements set forth in these Instructions, as authorized by the Code of Maryland Regulations (COMAR) 21.11.03.

2. MBE Goals and Subgoals: Please review the solicitation for information regarding the Contract’s MBE overall participation goals and subgoals. After satisfying the requirements for any established subgoals, the Contractor is encouraged to use a diverse group of subcontractors and suppliers from any/all of the various MBE classifications to meet the remainder of the overall MBE participation goal.

3. MBE means a minority business enterprise that is certified by the Maryland Department of Transportation (“MDOT”). Only entities certified by MDOT may be counted for purposes of achieving the MBE participation goals. In order to be counted for purposes of achieving the MBE participation goals, the MBE firm, including a MBE prime, must be MDOT-certified for the services, materials or supplies that it is committed to perform on the MBE Participation Schedule.

4. Please refer to the MDOT MBE Directory at www.mdot.state.md.us to determine if a firm is certified with the appropriate North American Industry Classification System (“NAICS”) Code and the product/services description (specific product that a firm is certified to provide or specific areas of work that a firm is certified to perform). For more general information about NAICS, please visit www.naics.com. Only those specific products and/or services for which a firm is certified in the MDOT Directory can be used for purposes of achieving the MBE participation goals. WARNING: If the firm’s NAICS Code is in graduated status, such products/services may not be counted for purposes of achieving the MBE participation goals. A NAICS Code is in the graduated status if the term “Graduated” follows the Code in the MDOT MBE Directory.

5. NOTE: New Guidelines Regarding MBE Prime Self-Performance. Please note that when a certified MBE firm participates as a prime contractor on a contract, a procurement agency may count the distinct, clearly defined portion of the work of the contract that the certified MBE firm performs with its own forces toward fulfilling up to fifty-percent (50%) of the MBE participation goal (overall) and up to one hundred percent (100%) of not more than one of the MBE participation subgoals, if any, established for the contract. In order to receive credit for self-performance, an MBE prime must list its
firm in Section 4A of the MBE Participation Schedule, including the certification category under which the MBE prime is self-performing and include information regarding the work it will self-perform. For the remaining portion of the overall goal and the subgoals, the MBE prime must also identify other certified MBE subcontractors (see Section 4B of the MBE Participation Schedule) used to meet those goals or request a waiver. For example, for a construction contract that has a 27% MBE overall participation goal and subgoals of 7% for African American firms and 4% for Asian American firms, subject to Section 4 above and this Section 5, a certified African American MBE prime can self-perform (a) up to 13.5% of the overall goal and (b) up to 7% of the African American subgoal. The remainder of the overall goal and subgoals would have to be met with other certified MBE firms or a waiver request.

For a services contract with a 30% percent MBE participation goal (overall) and subgoals of 7% for African-American firms, 4% for Asian American firms and 12% for women-owned firms, subject to Sections 4 above and this Section 5, a dually-certified Asian American/Woman MBE prime can self-perform (a) up to 15% of the overall goal and (b) up to four percent (4%) of the Asian American subgoal OR up to twelve percent (12%) of the women subgoal. Because it is dually-certified, the company can be designated as only ONE of the MBE classifications (Asian American or women) but can self-perform up to one hundred percent (100%) of the stated subgoal for the single classification it selects.

6. Subject to the restrictions stated in Section 5 above, when a certified MBE that performs as a participant in a joint venture, a procurement agency may count a portion of the total dollar value of the contract equal to the distinct, clearly-defined portion of the work of the contract that the certified MBE performs with its own forces toward fulfilling the contract goal, and not more than one of the contract subgoals, if any. For example, if a MBE firm is a joint venture partner and the State determines that it is performing with its own forces 35 percent of the work in the contract, it can use this portion of the work towards fulfilling up to fifty percent (50%) of the overall goal and up to one hundred percent (100%) of one of the stated subgoals, if applicable.

7. As set forth in COMAR 21.11.03.12-1, once the Contract work begins, the work performed by a certified MBE firm, including an MBE prime, can only be counted towards the MBE participation goal(s) if the MBE firm is performing a commercially useful function on the Contract. Please refer to COMAR 21.11.03.12-1 for more information regarding these requirements.

8. If you have any questions as to whether a firm is certified to perform the specific services or provide specific products, please contact MDOT’s Office of Minority Business Enterprise at 1-800-544-6056 or via e-mail to mbe@mdot.state.md.us sufficiently prior to the submission due date.

9. Worksheet: The percentage of MBE participation, calculated using the percentage amounts for all of the MBE firms listed on the Participation Schedule MUST at least equal the MBE participation goal and subgoals (if applicable) set forth in the solicitation. If a Bidder/Offeror is unable to achieve the MBE participation goal and/or any subgoals (if applicable), the Bidder/Offeror must request a waiver in Item 1 of the MBE Utilization and Fair Solicitation Affidavit (Attachment D-1A) or the bid will be deemed not responsive, or the proposal determined to be not susceptible of being selected for award. You may wish to use the Subgoal summary below to assist in calculating the percentages and confirm that you have met the applicable MBE participation goal and subgoals, if any.
Subgoals (if applicable)

Total African American MBE Participation: ____________%
Total Asian American MBE Participation: ____________%
Total Hispanic American MBE Participation: ____________%
Total Women-Owned MBE Participation: ____________%

Overall Goal

Total MBE Participation (include all categories): ____________%
This MBE Utilization and Fair Solicitation Affidavit and MBE Participation Schedule must be included with the bid/proposal for any solicitation with an MBE goal greater than 0%. If the Bidder/Offeror fails to accurately complete and submit this Affidavit and Schedule with the bid or proposal as required, the Procurement Officer shall deem the bid non-responsive or shall determine that the proposal is not reasonably susceptible of being selected for award.

In connection with the bid/proposal submitted in response to Solicitation No. OTHS/OTHS-17-013-S (N00R7400021).

1. MBE Participation (PLEASE CHECK ONLY ONE)

   I acknowledge and intend to meet the overall certified Minority Business Enterprise (MBE) participation goal of ___ percent and, if specified in the solicitation, the following subgoals (complete for only those subgoals that apply):
   
   7 percent for African American-owned MBE firms
   8 percent for Women-owned MBE firms

   Therefore, I am not seeking a waiver pursuant to COMAR 21.11.03.11.

   Notwithstanding any subgoals established above, the Contractor is encouraged to use a diverse group of subcontractors and suppliers from any/all of the various MBE classifications to meet the remainder of the overall MBE participation goal.

   OR

   ____ I conclude that I am unable to achieve the MBE participation goal and/or subgoals. I hereby request a waiver, in whole or in part, of the overall goal and/or subgoals. Within 10 Working days of receiving notice that our firm is the apparent awardee or as requested by the Procurement Officer, I will submit the completed Good Faith Efforts Documentation to Support Waiver Request (Attachment D-1C) and all required waiver documentation in accordance with COMAR 21.11.03.

2. Additional MBE Documentation

   I understand that if I am notified that I am the apparent awardee or as requested by the Procurement Officer, I must submit the following documentation within 10 business days of receiving notice of the potential award or from the date of conditional award (per COMAR 21.11.03.10), whichever is earlier:

   (a) Outreach Efforts Compliance Statement (Attachment D-2);
   (b) MBE Subcontractor Project Participation Statement (Attachment D-3);
   (c) Any other documentation, including waiver documentation if applicable, required by the Procurement Officer to ascertain Bidder or Offeror responsibility in connection with the certified MBE participation goal and subgoals, if any.
I understand that if I fail to return each completed document within the required time, the Procurement Officer may determine that I am not responsible and therefore not eligible for contract award. If the contract has already been awarded, the award is voidable.

3. Information Provided to MBE firms

In the solicitation of subcontract quotations or offers, MBE firms were provided not less than the same information and amount of time to respond as were non-MBE firms.

4. MBE Participation Schedule

Set forth below are the (i) certified MBEs I intend to use, (ii) the percentage of the total Contract amount allocated to each MBE for this project and, (iii) the items of work each MBE will provide under the Contract. I have confirmed with the MDOT database that the MBE firms identified below are performing work activities for which they are MDOT certified.

MBE ATTACHMENT D-1B WAIVER GUIDANCE

GUIDANCE FOR DOCUMENTING GOOD FAITH EFFORTS TO MEET MBE PARTICIPATION GOALS

In order to show that it has made good faith efforts to meet the Minority Business Enterprise (MBE) participation goal (including any MBE subgoals) on a contract, the Bidder/Offeror must either (1) meet the MBE Goal(s) and document its commitments for participation of MBE Firms, or (2) when it does not meet the MBE Goal(s), document its Good Faith Efforts to meet the goal(s).

I. Definitions

MBE Goal(s) – “MBE Goal(s)” refers to the MBE participation goal and MBE participation subgoal(s).

Good Faith Efforts – The “Good Faith Efforts” requirement means that when requesting a waiver, the Bidder/Offeror must demonstrate that it took all necessary and reasonable steps to achieve the MBE Goal(s), which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient MBE participation, even if those steps were not fully successful. Whether a Bidder/Offeror that requests a waiver made adequate good faith efforts will be determined by considering the quality, quantity, and intensity of the different kinds of efforts that the Bidder/Offeror has made. The efforts employed by the Bidder/Offeror should be those that one could reasonably expect a Bidder/Offeror to take if the Bidder/Offeror were actively and aggressively trying to obtain MBE participation sufficient to meet the MBE contract goal and subgoals. Mere pro forma efforts are not good faith efforts to meet the MBE contract requirements. The determination concerning the sufficiency of the Bidder's/Offeror’s good faith efforts is a judgment call; meeting quantitative formulas is not required.

Identified Firms – “Identified Firms” means a list of the MBEs identified by the procuring agency during the goal setting process and listed in the procurement as available to perform the Identified Items of Work. It also may include additional MBEs identified by the Bidder/Offeror as available to perform the Identified Items of Work, such as MBEs certified or granted an expansion of services after the procurement was issued. If the procurement does not include a list of Identified Firms, this term refers to all of the MBE Firms (if State-funded) the Bidder/Offeror identified as available to perform the Identified Items of Work and should include all appropriately certified firms that are reasonably identifiable.

Identified Items of Work – “Identified Items of Work” means the bid items identified by the procuring agency during the goal setting process and listed in the procurement as possible items of work for performance by MBE Firms. It also may include additional portions of items of work the Bidder/Offeror identified for performance by MBE Firms to increase the likelihood that the MBE Goal(s) will be achieved. If the procurement does not include a list of Identified Items of Work, this term refers to all of the items of work the Bidder/Offeror identified as possible items of work for performance by MBE Firms and should include all reasonably identifiable work opportunities.

MBE Firms – “MBE Firms” refers to a firm certified by the Maryland Department of Transportation (“MDOT”) under COMAR 21.11.03. Only MDOT-certified MBE Firms can participate in the State’s MBE Program.
II. Types of Actions Agency will Consider

The Bidder/Offeror is responsible for making relevant portions of the work available to MBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available MBE subcontractors and suppliers, so as to facilitate MBE participation. The following is a list of types of actions the procuring agency will consider as part of the Bidder's/Offeror’s Good Faith Efforts when the Bidder/Offeror fails to meet the MBE Goal(s). This list is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

A. Identify Bid Items as Work for MBE Firms

1. Identified Items of Work in Procurements
   (a) Certain procurements will include a list of bid items identified during the goal setting process as possible work for performance by MBE Firms. If the procurement provides a list of Identified Items of Work, the Bidder/Offeror shall make all reasonable efforts to solicit quotes from MBE Firms to perform that work.
   (b) Bidders/Offerors may, and are encouraged to, select additional items of work to be performed by MBE Firms to increase the likelihood that the MBE Goal(s) will be achieved.

2. Identified Items of Work by Bidders/Offerors
   (a) When the procurement does not include a list of Identified Items of Work or for additional Identified Items of Work, Bidders/Offerors should reasonably identify sufficient items of work to be performed by MBE Firms.
   (b) Where appropriate, Bidders/Offerors should break out contract work items into economically feasible units to facilitate MBE participation, rather than perform these work items with their own forces. The ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the Bidder/Offeror of the responsibility to make Good Faith Efforts.

B. Identify MBE Firms to Solicit

1. MBE Firms Identified in Procurements
   (a) Certain procurements will include a list of the MBE Firms identified during the goal setting process as available to perform the items of work. If the procurement provides a list of Identified MBE Firms, the Bidder/Offeror shall make all reasonable efforts to solicit those MBE firms.
   (b) Bidders/Offerors may, and are encouraged to, search the MBE Directory to identify additional MBEs who may be available to perform the items of work, such as MBEs certified or granted an expansion of services after the solicitation was issued.

2. MBE Firms Identified by Bidders/Offerors
   (a) When the procurement does not include a list of Identified MBE Firms, Bidders/Offerors should reasonably identify the MBE Firms that are available to perform the Identified Items of Work.

(b) Any MBE Firms identified as available by the Bidder/Offeror should be certified to perform the Identified Items of Work.

C. Solicit MBEs

1. Solicit all Identified Firms for all Identified Items of Work by providing written notice. The Bidder/Offeror should:

   (a) provide the written solicitation at least 10 days prior to bid opening to allow sufficient time for the MBE Firms to respond;

   (b) send the written solicitation by first-class mail, facsimile, or e-mail using contact information in the MBE Directory, unless the Bidder/Offeror has a valid basis for using different contact information; and

   (c) provide adequate information about the plans, specifications, anticipated time schedule for portions of the work to be performed by the MBE, and other requirements of the contract to assist MBE Firms in responding. (This information may be provided by including hard copies in the written solicitation or by electronic means as described in C.3 below.)

2. “All” Identified Firms includes the MBEs listed in the procurement and any MBE Firms you identify as potentially available to perform the Identified Items of Work, but it does not include MBE Firms who are no longer certified to perform the work as of the date the Bidder/Offeror provides written solicitations.

3. “Electronic Means” includes, for example, information provided via a website or file transfer protocol (FTP) site containing the plans, specifications, and other requirements of the contract. If an interested MBE cannot access the information provided by electronic means, the Bidder/Offeror must make the information available in a manner that is accessible to the interested MBE.

4. Follow up on initial written solicitations by contacting MBEs to determine if they are interested. The follow up contact may be made:

   (a) by telephone using the contact information in the MBE Directory, unless the Bidder/Offeror has a valid basis for using different contact information; or

   (b) in writing via a method that differs from the method used for the initial written solicitation.

5. In addition to the written solicitation set forth in C.1 and the follow up required in C.4, use all other reasonable and available means to solicit the interest of MBE Firms certified to perform the work of the contract. Examples of other means include:

   (a) attending any pre-bid meetings at which MBE Firms could be informed of contracting and subcontracting opportunities; and

   (b) if recommended by the procurement, advertising with or effectively using the services of at least two minority focused entities or media, including trade associations, minority/women community organizations, minority/women contractors' groups, and local, state, and federal minority/women business assistance offices listed on the MDOT Office of Minority Business Enterprise website.
Bidders/Offerors must negotiate in good faith with interested MBE Firms.

1. Evidence of negotiation includes, without limitation, the following:
   (a) the names, addresses, and telephone numbers of MBE Firms that were considered;
   (b) a description of the information provided regarding the plans and specifications for the work selected for subcontracting and the means used to provide that information; and
   (c) evidence as to why additional agreements could not be reached for MBE Firms to perform the work.

2. A Bidder/Offeror using good business judgment would consider a number of factors in negotiating with subcontractors, including MBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration.

3. The fact that there may be some additional costs involved in finding and using MBE Firms is not in itself sufficient reason for a Bidder's/Offeror’s failure to meet the contract MBE goal(s), as long as such costs are reasonable. Factors to take into consideration when determining whether a MBE Firm’s quote is excessive or unreasonable include, without limitation, the following:
   (a) the dollar difference between the MBE subcontractor’s quote and the average of the other subcontractors’ quotes received by the Bidder/Offeror;
   (b) the percentage difference between the MBE subcontractor’s quote and the average of the other subcontractors’ quotes received by the Bidder/Offeror;
   (c) the percentage that the MBE subcontractor’s quote represents of the overall contract amount;
   (d) the number of MBE firms that the Bidder/Offeror solicited for that portion of the work;
   (e) whether the work described in the MBE and Non-MBE subcontractor quotes (or portions thereof) submitted for review is the same or comparable; and
   (f) the number of quotes received by the Bidder/Offeror for that portion of the work.

4. The above factors are not intended to be mandatory, exclusive, or exhaustive, and other evidence of an excessive or unreasonable price may be relevant.

5. The Bidder/Offeror may not use its price for self-performing work as a basis for rejecting a MBE Firm’s quote as excessive or unreasonable.

6. The “average of the other subcontractors’ quotes received” by the Bidder/Offeror refers to the average of the quotes received from all subcontractors. Bidder/Offeror should attempt to receive quotes from at least three subcontractors, including one quote from a MBE and one quote from a Non-MBE.

7. A Bidder/Offeror shall not reject a MBE Firm as unqualified without sound reasons based on a thorough investigation of the firm’s capabilities. For each certified MBE that is rejected as unqualified or that placed a subcontract quotation or offer that the Bidder/Offeror concludes is not acceptable, the Bidder/Offeror must provide a written detailed statement listing the reasons for this conclusion. The Bidder/Offeror also must document the steps taken to verify the capabilities of the MBE and Non-MBE Firms quoting similar work.
(a) The factors to take into consideration when assessing the capabilities of a MBE Firm, include, but are not limited to the following: financial capability, physical capacity to perform, available personnel and equipment, existing workload, experience performing the type of work, conduct and performance in previous contracts, and ability to meet reasonable contract requirements.

(b) The MBE Firm’s standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the efforts to meet the project goal.

E. Assisting Interested MBE Firms

When appropriate under the circumstances, the decision-maker will consider whether the Bidder/Offeror:

1. made reasonable efforts to assist interested MBE Firms in obtaining the bonding, lines of credit, or insurance required by the procuring agency or the Bidder/Offeror; and

2. made reasonable efforts to assist interested MBE Firms in obtaining necessary equipment, supplies, materials, or related assistance or services.

III. Other Considerations

In making a determination of Good Faith Efforts the decision-maker may consider engineering estimates, catalogue prices, general market availability and availability of certified MBE Firms in the area in which the work is to be performed, other bids or offers and subcontract bids or offers substantiating significant variances between certified MBE and Non-MBE costs of participation, and their impact on the overall cost of the contract to the State and any other relevant factors.

The decision-maker may take into account whether a Bidder/Offeror decided to self-perform subcontract work with its own forces, especially where the self-performed work is Identified Items of Work in the procurement. The decision-maker also may take into account the performance of other Bidders/Offerors in meeting the contract. For example, when the apparent successful Bidder/Offeror fails to meet the contract goal, but others meet it, this reasonably raises the question of whether, with additional reasonable efforts, the apparent successful Bidder/Offeror could have met the goal. If the apparent successful Bidder/Offeror fails to meet the goal, but meets or exceeds the average MBE participation obtained by other Bidders/Offerors, this, when viewed in conjunction with other factors, could be evidence of the apparent successful Bidder/Offeror having made Good Faith Efforts.

IV. Documenting Good Faith Efforts

At a minimum, a Bidder/Offeror seeking a waiver of the MBE Goal(s) or a portion thereof must provide written documentation of its Good Faith Efforts, in accordance with COMAR 21.11.03.11, within 10 business days after receiving notice that it is the apparent awardee. The written documentation shall include the following:

A. Items of Work (Complete Good Faith Efforts Documentation Attachment D-1C, Part 1)

A detailed statement of the efforts made to select portions of the work proposed to be performed by certified MBE Firms in order to increase the likelihood of achieving the stated MBE Goal(s).

B. Outreach/Solicitation/Negotiation
1. The record of the Bidder’s/Offeror’s compliance with the outreach efforts prescribed by COMAR 21.11.03.09C(2)(a). (Complete Outreach Efforts Compliance Statement – Attachment D-2).

2. A detailed statement of the efforts made to contact and negotiate with MBE Firms including:
   (a) the names, addresses, and telephone numbers of the MBE Firms who were contacted, with the dates and manner of contacts (letter, fax, e-mail, telephone, etc.) (Complete Good Faith Efforts Attachment D-1C- Part 2, and submit letters, fax cover sheets, e-mails, etc. documenting solicitations); and
   (b) a description of the information provided to MBE Firms regarding the plans, specifications, and anticipated time schedule for portions of the work to be performed and the means used to provide that information.

C. Rejected MBE Firms (Complete Good Faith Efforts Attachment D-1C, Part 3)
   1. For each MBE Firm that the Bidder/Offeror concludes is not acceptable or qualified, a detailed statement of the reasons for the Bidder's/Offeror’s conclusion, including the steps taken to verify the capabilities of the MBE and Non-MBE Firms quoting similar work.
   2. For each certified MBE Firm that the Bidder/Offeror concludes has provided an excessive or unreasonable price, a detailed statement of the reasons for the Bidder's/Offeror’s conclusion, including the quotes received from all MBE and Non-MBE firms bidding on the same or comparable work. (Include copies of all quotes received.)
   3. A list of MBE Firms contacted but found to be unavailable. This list should be accompanied by a MBE Unavailability Certificate (see Exhibit A to this Part 1) signed by the MBE contractor or a statement from the Bidder/Offeror that the MBE contractor refused to sign the MBE Unavailability Certificate.

D. Other Documentation
   1. Submit any other documentation requested by the Procurement Officer to ascertain the Bidder’s/Offeror’s Good Faith Efforts.
   2. Submit any other documentation the Bidder/Offeror believes will help the Procurement Officer ascertain its Good Faith Efforts.

Identify those items of work that the Bidder/Offeror made available to MBE Firms. This includes, where appropriate, those items the Bidder/Offeror identified and determined to subdivide into economically feasible units to facilitate the MBE participation. For each item listed, show the anticipated percentage of the total contract amount. It is the Bidder’s/Offeror’s responsibility to demonstrate that sufficient work to meet the goal was made available to MBE Firms, and the total percentage of the items of work identified for MBE participation equals or exceeds the percentage MBE goal set for the procurement. Note: If the procurement includes a list of bid items identified during the goal setting process as possible items of work for performance by MBE Firms, the Bidder/Offeror should make all of those items of work available to MBE Firms or explain why that item was not made available. If the Bidder/Offeror selects additional items of work to make available to MBE Firms, those additional items should also be included below.

Identify the MBE Firms solicited to provide quotes for the Identified Items of Work made available for MBE participation. Include the name of the MBE Firm solicited, items of work for which bids/quotes were solicited, date and manner of initial and follow-up solicitations, whether the MBE provided a quote, and whether the MBE is being used to meet the MBE participation goal. MBE Firms used to meet the participation goal must be included on the MBE Participation Schedule. Note: If the procurement includes a list of the MBE Firms identified during the goal setting process as potentially available to perform the items of work, the Bidder/Offeror should solicit all of those MBE Firms or explain why a specific MBE was not solicited. If the Bidder/Offeror identifies additional MBE Firms who may be available to perform Identified Items of Work, those additional MBE Firms should also be included below. Copies of all written solicitations and documentation of follow-up calls to MBE Firms must be attached to this form. This list should be accompanied by a Minority Contractor Unavailability Certificate signed by the MBE contractor or a statement from the Bidder/Offeror that the MBE contractor refused to sign the Minority Contractor Unavailability Certificate (see Exhibit A to MBE Attachment D-1B). If the Bidder/Offeror used a Non-MBE or is self-performing the identified items of work, Part 4 must be completed.

This form must be completed if Part 1 indicates that a MBE quote was rejected because the Bidder/Offeror is using a Non-MBE or is self-performing the Identified Items of Work. ATTACHMENT F - FINANCIAL PROPOSAL PRICING INSTRUCTIONS

In order to assist Offerors in the preparation of their Financial Proposal and to comply with the requirements of this solicitation, Price Sheet Instructions and a Price Sheet have been prepared. Offerors shall submit their Financial Proposal on the Price Sheet in accordance with the instructions on the Price Sheet and as specified herein. Do not alter the Price Sheet or the Proposal may be determined to be not reasonably susceptible of being selected for award. The Price Sheet is to be signed and dated, where requested, by an individual who is authorized to bind the Offeror to the prices entered on the Price Sheet.

The Price Sheet is used to calculate the Offeror’s TOTAL EVALUATED PRICE. Follow these instructions carefully when completing your Price Sheet:

A) All Unit and Extended Prices must be clearly entered in dollars and cents, e.g., $24.15. Make your decimal points clear and distinct.

B) All Unit Prices must be the actual price per unit the State will pay for the specific item or service identified in this RFP and may not be contingent on any other factor or condition in any manner.

C) All calculations shall be rounded to the nearest cent, i.e., .344 shall be .34 and .345 shall be .35.

D) Any goods or services required through this RFP and proposed by the vendor at No Cost to the State must be clearly entered in the Unit Price, if appropriate, and Extended Price with $0.00.

E) Every blank in every Price Sheet shall be filled in. Any changes or corrections made to the Price Sheet by the Offeror prior to submission shall be initialed and dated.

F) Except as instructed on the Price Sheet, nothing shall be entered on or attached to the Price Sheet that alters or proposes conditions or contingencies on the prices. Alterations and/or conditions may render the Proposal not reasonably susceptible of being selected for award.

G) It is imperative that the prices included on the Price Sheet have been entered correctly and calculated accurately by the Offeror and that the respective total prices agree with the entries on the Price Sheet. Any incorrect entries or inaccurate calculations by the Offeror will be treated as provided in COMAR 21.05.03.03E and 21.05.02.12, and may cause the Proposal to be rejected.

H) If option years are included, Offerors must submit pricing for each option year. Any option to renew will be exercised at the sole discretion of the State and will comply with all terms and conditions in force at the time the option is exercised. If exercised, the option period shall be for a period identified in the RFP at the prices entered in the Price Sheet.

I) All Financial Proposal prices entered below are to be fully loaded prices that include all costs/expenses associated with the provision of services as required by the RFP. The Financial Proposal price shall include, but is not limited to: all labor, profit/overhead, general operating, administrative, and all other expenses and costs necessary to perform the work set forth in the solicitation. No other amounts will be paid to the Contractor. If labor rates are requested, those amounts shall be fully-loaded rates; no overtime amounts will be paid.

J) Unless indicated elsewhere in the RFP, sample amounts used for calculations on the Price Sheet are typically estimates for evaluation purposes only. Unless stated otherwise in the RFP, DHR
Automated Fiscal System (AFS) Modernization Project

does not guarantee a minimum or maximum number of units or usage in the performance of this Contract.

K) Failure to adhere to any of these instructions may result in the Proposal being determined not reasonably susceptible of being selected for award.

THE PRICE SHEET IS ATTACHED AS A SEPARATE EXCEL SPREADSHEET.
Living Wage Requirements for Service Contracts

A. This contract is subject to the Living Wage requirements under Md. Code Ann., State Finance and Procurement Article, Title 18, and the regulations proposed by the Commissioner of Labor and Industry (Commissioner). The Living Wage generally applies to a Contractor or Subcontractor who performs work on a State contract for services that is valued at $100,000 or more. An employee is subject to the Living Wage if he/she is at least 18 years old or will turn 18 during the duration of the contract; works at least 13 consecutive weeks on the State Contract and spends at least one-half of the employee’s time during any work week on the State Contract.

B. The Living Wage Law does not apply to:

(1) A Contractor who:
   (a) Has a State contract for services valued at less than $100,000, or
   (b) Employs 10 or fewer employees and has a State contract for services valued at less than $500,000.

(2) A Subcontractor who:
   (a) Performs work on a State contract for services valued at less than $100,000,
   (b) Employs 10 or fewer employees and performs work on a State contract for services valued at less than $500,000, or
   (c) Performs work for a Contractor not covered by the Living Wage Law as defined in B(1)(b) above, or B(3) or C below.

(3) Service contracts for the following:
   (a) Services with a Public Service Company;
   (b) Services with a nonprofit organization;
   (c) Services with an officer or other entity that is in the Executive Branch of the State government and is authorized by law to enter into a procurement (“Unit”); or
   (d) Services between a Unit and a County or Baltimore City.

C. If the Unit responsible for the State contract for services determines that application of the Living Wage would conflict with any applicable Federal program, the Living Wage does not apply to the contract or program.

D. A Contractor must not split or subdivide a State contract for services, pay an employee through a third party, or treat an employee as an independent Contractor or assign work to employees to avoid the imposition of any of the requirements of Md. Code Ann., State Finance and Procurement Article, Title 18.
E. Each Contractor/Subcontractor, subject to the Living Wage Law, shall post in a prominent and easily accessible place at the work site(s) of covered employees a notice of the Living Wage Rates, employee rights under the law, and the name, address, and telephone number of the Commissioner.

F. The Commissioner shall adjust the wage rates by the annual average increase or decrease, if any, in the Consumer Price Index for all urban consumers for the Washington/Baltimore metropolitan area, or any successor index, for the previous calendar year, not later than 90 days after the start of each fiscal year. The Commissioner shall publish any adjustments to the wage rates on the Division of Labor and Industry’s website. An employer subject to the Living Wage Law must comply with the rate requirements during the initial term of the contract and all subsequent renewal periods, including any increases in the wage rate, required by the Commissioner, automatically upon the effective date of the revised wage rate.

G. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer’s share of the health insurance premium, as provided in Md. Code Ann., State Finance and Procurement Article, §18-103(c), shall not lower an employee’s wage rate below the minimum wage as set in Md. Code Ann., Labor and Employment Article, §3-413. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer’s share of health insurance premium shall comply with any record reporting requirements established by the Commissioner.

H. A Contractor/Subcontractor may reduce the wage rates paid under Md. Code Ann., State Finance and Procurement Article, §18-103(a), by no more than 50 cents of the hourly cost of the employer’s contribution to an employee’s deferred compensation plan. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer’s contribution to an employee’s deferred compensation plan shall not lower the employee’s wage rate below the minimum wage as set in Md. Code Ann., Labor and Employment Article, §3-413.

I. Under Md. Code Ann., State Finance and Procurement Article, Title 18, if the Commissioner determines that the Contractor/Subcontractor violated a provision of this title or regulations of the Commissioner, the Contractor/Subcontractor shall pay restitution to each affected employee, and the State may assess liquidated damages of $20 per day for each employee paid less than the Living Wage.

J. Information pertaining to reporting obligations may be found by going to the Division of Labor and Industry website http://www.dllr.state.md.us/labor/ and clicking on Living Wage for State Service Contracts.

1. Form and rule enclosed: 18 U.S.C. 1913 and Section 1352 of P.L. 101-121 require that all prospective and present sub-grantees (this includes all levels of funding) who receive more than $100,000 in federal funds must submit the form “Certification Against Lobbying.” It assures, generally, that recipients will not lobby federal entities with federal funds, and that, as is required, they will disclose other lobbying on form SF-LLL.

2. Form and instructions enclosed: “Form LLL, Disclosure of Lobbying Activities” must be submitted by those receiving more than $100,000 in federal funds, to disclose any lobbying of federal entities (a) with profits from federal contracts or (b) funded with nonfederal funds.

3. Form and summary of Act enclosed: Sub-recipients of federal funds on any level must complete a “Certification Regarding Environmental Tobacco Smoke,” required by Public Law 103-227, the Pro-Children Act of 1994. Such law prohibits smoking in any portion of any indoor facility owned or leased or contracted for regular provision of health, day care, early childhood development, education, or library services for children under the age of 18. Such language must be included in the conditions of award (they are included in the certification, which may be part of such conditions.) This does not apply to those solely receiving Medicaid or Medicare, or facilities where WIC coupons are redeemed.

4. In addition, federal law requires that:

OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations requires that grantees (both recipients and sub-recipients) which expend a total of $300,000 or more ($500,000 for fiscal years ending after December 31, 2003) in federal assistance shall have a single or program-specific audit conducted for that year in accordance with the provisions of the Single Audit Act of 1984, P.L. 98-502, and the Single Audit Act Amendments of 1996, P.L. 104-156 and the Office of Management and Budget (OMB) Circular A-133. All sub-grantee audit reports, performed in compliance with the aforementioned Circular shall be forwarded within 30 days of report issuance to the Contract Manager.

B) All sub-recipients of federal funds comply with Sections 503 and 504 of the Rehabilitation Act of 1973, the conditions of which are summarized in item (C).

C) Recipients of $10,000 or more (on any level) must include in their contract language the requirements of Sections 503 (language specified) and 504 referenced in item (B).

Section 503 of the Rehabilitation Act of 1973, as amended, requires recipients to take affirmative action to employ and advance in employment qualified disabled people. An affirmative action program must be prepared and maintained by all contractors with 50 or more employees and one or more federal contracts of $50,000 or more.

This clause must appear in subcontracts of $10,000 or more:
a) The contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap in regard to any position for which the employee or applicant for employment is qualified. The contractor agrees to take affirmative action to employ, advance in employment and otherwise treat qualified handicapped individuals without discrimination based upon their physical or mental handicap in all upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

b) The contractor agrees to comply with the rules, regulations, and relevant orders of the secretary of labor issued pursuant to the act.

c) In the event of the contractor’s non-compliance with the requirements of this clause, actions for non-compliance may be taken in accordance with the rules, regulations and relevant orders of the secretary of labor issued pursuant to the act.

d) The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the director, provided by or through the contracting office. Such notices shall state the contractor’s obligation under the law to take affirmative action to employ and advance in employment qualified handicapped employees and applicants for employment, and the rights of applicants and employees.

e) The contractor will notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the contractor is bound by the terms of Section 503 of the Rehabilitation Act of 1973, and is committed to take affirmative action to employ and advance in employment physically and mentally handicapped individuals.

f) The contractor will include the provisions of this clause in every subcontract or purchase order of $10,000 or more unless exempted by rules, regulations, or orders of the [federal] secretary issued pursuant to Section 503 of the Act, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the director of the Office of Federal Contract Compliance Programs may direct to enforce such provisions, including action for non-compliance.

Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. Sec. 791 et seq.) prohibits discrimination on the basis of handicap in all federally assisted programs and activities. It requires the analysis and making of any changes needed in three general areas of operation—programs, activities, and facilities and employment. It states, among other things, that:

Grantees that provide health services should undertake tasks such as ensuring emergency treatment for the hearing impaired and making certain that persons with impaired sensory or speaking skills are not denied effective notice with regard to benefits, services, and waivers of rights or consents to treatments.

D) All sub-recipients comply with Title VI of the Civil Rights Act of 1964 that they must not discriminate in participation by race, color, or national origin.

E) All sub-recipients of federal funds from SAMHSA (Substance Abuse and Mental Health Services Administration) or NIH (National Institute of Health) are prohibited from paying any direct salary at a rate more than Executive Level 1 per year. (This includes, but is not limited to, sub-
recipients of the Substance Abuse Prevention and Treatment and the Community Mental Health Block Grants and NIH research grants."

F) There may be no discrimination on the basis of age, according to the requirements of the Age Discrimination Act of 1975.

G) For any education program, as required by Title IX of the Education Amendments of 1972, there may be no discrimination on the basis of sex.

H) For research projects, a form for Protection of Human Subjects (Assurance/ Certification/ Declaration) should be completed by each level funded, assuring that either: (1) there are no human subjects involved, or that (2) an Institutional Review Board (IRB) has given its formal approval before human subjects are involved in research. [This is normally done during the application process rather than after the award is made, as with other assurances and certifications.]

I) In addition, there are conditions, requirements, and restrictions which apply only to specific sources of federal funding. These should be included in your grant/contract documents when applicable.

CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE

Public Law 103-227, also known as the Pro Children Act of 1994, Part C Environmental Tobacco Smoke, requires that smoking not be permitted in any portion of any indoor facility owned, or leased or contracted for by an entity and used routinely or regularly for provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children’s services that are provided in indoor facilities that are constructed, operated or maintained with such federal funds. The law does not apply to children’s services provided in private residences, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole sources of applicable federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing this certification, the Offeror/contractor (for acquisitions) or applicant/grantee (for grants) certifies that the submitting organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The submitting organization further agrees that it will require the language of this certification be included in any sub-awards which contain provisions for children’s services and that all sub-recipients shall certify accordingly.

RECITALS

WHEREAS, the Contractor has been awarded a contract (the “Contract”) following the solicitation for Automated Fiscal System (AFS) Modernization Project Solicitation # N00R7400021 and

NOW, THEREFORE, in consideration of being given access to the Confidential Information in connection with the solicitation and the Contract, and for other good and valuable consideration, the receipt and sufficiency of which the parties acknowledge, the parties do hereby agree as follows:

1. Regardless of the form, format, or media on or in which the Confidential Information is provided and regardless of whether any such Confidential Information is marked as such, Confidential Information means (1) any and all information provided by or made available by the State to the Contractor in connection with the Contract and (2) any and all personally identifiable information (PII) (including but not limited to personal information as defined in Md. Accordingly, the Contractor agrees that the State may obtain an injunction to prevent the disclosure, copying or improper use of the Confidential Information. The Contractor consents to personal jurisdiction in the Maryland State Courts. The State’s rights and remedies hereunder are cumulative and the State expressly reserves any and all rights, remedies, claims and actions that it may have now or in the future to protect the Confidential Information and to seek damages from the Contractor and the Contractor’s Personnel for a failure to comply with the requirements of this Agreement. In the event the State suffers any losses, damages, liabilities, expenses, or costs (including, by way of example only, attorneys’ fees and disbursements) that are attributable, in whole or in part to any failure by the Contractor or any of the Contractor’s Personnel to comply with the requirements of this Agreement, the Contractor shall hold harmless and indemnify the State from and against any such losses, damages, liabilities, expenses, and costs.

10. The parties further agree that:

a. This Agreement shall be governed by the laws of the State of Maryland;

b. The rights and obligations of the Contractor under this Agreement may not be assigned or delegated, by operation of law or otherwise, without the prior written consent of the State;

VSBE Utilization Affidavit and Subcontractor Participation Schedule
(submit with Bid/Proposal)

This document MUST BE included with the Bid/Proposal. If the Bidder/Offeror fails to complete and submit this form with the Bid/Proposal, the procurement officer may determine that the Bid is non-responsive or that the Proposal is not reasonably susceptible of being selected for award.

In conjunction with the Bid/Proposal submitted in response to Solicitation No. OTHS/OTHS-17-013-S (N00R7400021), I affirm the following:

1. □ I acknowledge and intend to meet the overall verified VSBE participation goal of 1%. Therefore, I will not be seeking a waiver.

   OR

□ I conclude that I am unable to achieve the VSBE participation goal. I hereby request a waiver, in whole or in part, of the overall goal. Within 10 business days of receiving notice that our firm is the apparent awardee, I will submit all required waiver documentation in accordance with COMAR 21.11.13.07.    (b) Any other documentation, including waiver documentation, if applicable, required by the Procurement Officer to ascertain Bidder/Offeror responsibility in connection with the VSBE participation goal.

I understand that if I fail to return each completed document within the required time, the Procurement Officer may determine that I am not responsible and therefore not eligible for contract award. If the contract has already been awarded, the award is voidable.

3. In the solicitation of subcontract quotations or offers, VSBE subcontractors were provided not less than the same information and amount of time to respond as were non-VSBE subcontractors.

4. Set forth below are the (i) verified VSBEs I intend to use and (ii) the percentage of the total contract amount allocated to each VSBE for this project. I hereby affirm that the VSBE firms are only providing those products and services for which they are verified.

ATTACHMENT U - PERFORMANCE BOND

THIS ATTACHMENT IS NOT APPLICABLE TO THIS RFP
See attached Functional, Technical, Reporting and Form Requirements Matrix. The Requirements Matrix lists detailed requirements of a functional or technical nature.

**Instructions:**

This Appendix provides the requirements table for the RFP. The requirements are set forth to allow the State to determine how well any particular Solution meets the requirements and by what means. The term “ability to” is defined as the fully configured capability to perform the remainder of the requirement statement. For instance “ability to forecast multi-year budgets for 5 or more years” means that the end users will be able to create a multi-year forecast for 5 years when the system is implemented.

**Weight:**

Requirements are listed on a three-point priority scale of (a) high, (b) medium, and (c) low. High priority requirements support existing business processes and are essential to the ongoing operation of DHR. The evaluation committee will evaluate high priority requirements at a higher priority than medium and low priority requirements. Medium and low priority requirements are desired features that will enhance existing or future operations. These requirements will each be evaluated at a lower priority based on impact to the organization.

**Compliance Check:**

The Offeror is expected to insert a compliance check mark for each requirement in the table indicating the degree of fit for the Offeror’s solution. The acceptable compliance check marks are to be entered as follows:

- **Standard feature in application:** Place a check mark in this column indicating that the requirement represents a standard feature in the Offeror’s solution.

- **Requires Customization:** Place a check mark in this column indicating that the requirement requires the Offeror to customize their solution in order to meet the stated requirement.

- **Not Available:** Place a check mark in this column indicating that the requirement is not available in the Offeror’s solution.

- **Additional Vendor Comments:** Provide additional comments in this field relative to the requirement being describe.
Employees must be advised at least annually of the provisions of Section 7213 (2) of the Internal Revenue Code (IRC), which makes unauthorized disclosure of the Federal returns or return information a crime that may be punishable by a $5,000.00 fine, five years imprisonment, or both, and the cost of the prosecution.

Employees who have access to Federal tax information must also be advised annually of the provisions of IRC § 7431, which permits a taxpayer to bring suit for unauthorized disclosure in the United States district court. The taxpayer would be entitled to the greater of civil damages or the actual damages plus punitive damages in addition to the cost of the action.

Employees are to be made aware that these civil and criminal penalties apply even if the unauthorized disclosures were made after their employment with the agency is terminated.

IRS § 7213(A). UNAUTHORIZED INSPECTION OF RETURNS OR RETURN INFORMATION

(a) PROHIBITIONS —

(1) FEDERAL EMPLOYEES AND OTHER PERSONS— It shall be unlawful for:
   (A) any officer or employee of the United States, or
   (B) any person described in IRC § 6103 (n) or an officer willfully to inspect, except as authorized in this title, any return or return information.

(2) STATE AND OTHER EMPLOYEES — It shall be unlawful for any person not described in paragraph (1) willfully to inspect, except as authorized by this title, any return information acquired by such person or another person under a provision of IRC § 6103 referred to in IRC § 7213 (a)(2).

(b) PENALTY —

(1) IN GENERAL — Any violation of subsection (a) shall be punishable upon conviction by a fine in any amount not exceeding $1000, or imprisonment of not more than 1 year, or both, together with the costs of prosecution.

(2) FEDERAL OFFICERS OR EMPLOYEES — An officer or employee of the United States who is convicted of any violation of subsection (a) shall, in addition to any other punishment, be dismissed from office or discharged from employment.

(a) DEFINITION —For purposes of the section, the terms "inspect", "return", and "return information" have respective meanings given such terms by IRC § 6103(b).
I understand and agree to these requirements
