CANNABIS USE IN MARYLAND:

LAWS, SAFETY AND HARM REDUCTION

The purpose of this live webinar is to provide those working with parents, caregivers, or individuals responsible for caring for children essential and accurate information on Maryland's Cannabis Reform Act which goes into effect July 1st. Speakers will discuss Maryland's law regarding cannabis cultivation, sales and consumption including the adverse effects of cannabis use and impacts on a child's health, attitude towards use and future use. The goal is for child welfare staff and individuals working with parents or caregivers to be better equipped to enhance public safety, welfare, and health for individuals consuming cannabis.

TARGET AUDIENCE

- Child welfare staff- screening supervisors
- CPS
- In-Home
- Foster Care
- Resource Homes
- Adult Protective Services staff
- Resource parents
- Health practitioners, professionals and community providers servicing families engaged with child welfare such as substance exposed newborns (SENs) or individuals consuming cannabis

LEARNING OBJECTIVES

1. Participants will be able to list 3 new rules of law specific to Maryland's Cannabis Reform Act.
2. Understand what is permitted concerning the sale of recreational cannabis use.
3. Learn about the medical cannabis process for patients, caregivers, and providers including the governing state agency's role and responsibilities.
4. Identify 3 cannabis health concerns for individuals, impact on children, and harm reduction strategies to promote family well-being and safety.
