*For the August 2025 PAA data there is not a decline. It is the way the end of month batch was done. Approximately half were in August 2025 and the other portion was in the beginning of September 2025. Therefore, the September 2025 expenditure data is higher than normal & recipient data is in the normal range as it is unduplicated recipients (meaning all recipients are only counted once even though they received a dual payment).
