

IV-E Waiver -- Development Phase

LDSS Data Package

December 2014, DHR/SSA

This data was prepared by DHR/SSA for use by LDSSs in the self-assessment phase of planning for the IV-E Waiver. Each LDSS was asked to use this data, as well as information and feedback from a team of stakeholders, to identify areas of service needs and gaps in their jurisdiction. The data in this packet comes from MD CHESSIE and CANS assessments, for a three-year period.

IV-E Waiver -- Development Phase

LDSS Data Package

December 2014, DHR/SSA

In order to gain a detailed and manageable perspective on the child and family need at the local level, the following information has been compiled:

General Population Information

Age breakouts: 0-17, 0-8, 9-13, 14-17, 18-20

Additional breakouts by gender and race/ethnicity

Reducing Entries 0-17
Reducing Entries 0-8
Reducing Entries 9-13
Reducing Entries 14-17
Reducing Reentries 0-17
Reducing Reentries 0-8
Reducing Reentries 9-13
Reducing Reentries 14-17

-- each spreadsheet has gender and race breakouts, family structure, siblings in care, In-Home Services history, median length of stay, placement type at 30 days, VPA, SDM and MFRA data, factors at entry (child and caregiver), and CANS data
-- each reentry spreadsheet also has data on exits, exit types, length of time to reentry, last placement type, services prior to preceding foster care episode, and

Notes:

Group Homes include Regular Group Homes, High Intensity, Developmental Disability, Medically Fragile, DETP, and Psychiatric Respite

TFC includes regular, Teens in Transition, Teen Parent, Medically Fragile, ILRP (Regular and Teen Parent)

CANS 0-8 is really only 6-8 (CANS is not completed for children ages 0-5)

THV = trial home visit

CANS data for Reentries is for all reentries (any time period; not just within one year)

Data Descriptions		
Data	Data Type	Data Definition / Notes
Total New Foster Care Entries		
FY 2012	count	
FY 2013	count	
FY 2014	count	
Family Removed From		
Family Structure	Count of Removals that have Family Structure data entered	Family structure as of time of removal
Married	percent of Fam Structure total	Family structure as of time of removal
Single Parent	percent of Fam Structure total	Family structure as of time of removal
Other relative	percent of Fam Structure total	Family structure as of time of removal
Median Age of Casehead (Primary Caregiver)	years	median age of casehead at time of child's removal
Child of a Teen Parent	percent of total entries	based on parent's age at time of birth of the child entering foster care
Parent had been a Foster Child	percent of total entries	possible undercount; based on query of parent in MD CHESSIE and CIS
Siblings in Foster Care Placement at Removal	percent of total entries	based on MD CHESSIE data (sibling was either in care either prior to removal or removed at the same time)
In-Home History (Within year prior to foster care entry)		
History (at least one prior In-Home service)	percent of total entries	history of at least one In-Home service program assignment within one year prior to foster care entry (removal)
Foster Care Median LOS (Months)	months	based only on children who have exited (including those who exited within 30
Percent in care who exited less than 30 days	percent of total entries	

Foster Care Placement (as of 30 days)	count in placement 30 days after removal	
Relative	percent of in care at 30 days	non-paid relative placements only (formal kinship care, THV, etc.)
Public Foster Care	percent of in care at 30 days	
Treatment Foster Care	percent of in care at 30 days	private and public TFC
Group Home	percent of in care at 30 days	
Residential Treatment Center	percent of in care at 30 days	
Independent Living	percent of in care at 30 days	
Other	percent of in care at 30 days	
Structured Decision Making (Prior to Removal)	count of those with SDM data	
-SDM General Neglect	percent of total SDM	
-SDM Risk of Harm	percent of total SDM	substance exposed newborns, domestic violence, substantial risk of sexual abuse by registered sexual offenders, family has history of previous death or serious injury due to child abuse/neglect
-SDM Physical Abuse	percent of total SDM	
-SDM Sexual Abuse	percent of total SDM	
Voluntary Placement Agreement	percent of total entries	both VPA types (time-lim. & dis.)
MFRA Rating (at Removal)	count of completed MFRA	
-MFRA Social Support for Family	percent of total MFRA	family/community supports
-MFRA CG Response to Stress	percent of total MFRA	coping
-MFRA Economic Factors	percent of total MFRA	ability to meet family needs
	percent of total MFRA	
Factors at Removal		
Child - Behavior	percent of total entries/reentries with this factor	
Child - Disability	percent of total entries/reentries with this factor	
Child - Alcohol / Drug Abuse	percent of total entries/reentries with this factor	
Caregiver - Death / Incarceration	percent of total entries/reentries with this factor	
Caregiver - Alcohol / Drug Abuse	percent of total entries/reentries with this factor	
Caregiver - Relinquishment	percent of total entries/reentries with this factor	
Caregiver - Cannot Cope	percent of total entries/reentries with this factor	
Caregiver - Housing	percent of total entries/reentries with this factor	
Caregiver - Abandonment	percent of total entries/reentries with this factor	

CANS (Child and Adolescent Needs and Strengths)		based on Intake CANS (CANS completed within 90 days of foster care entry/removal)
Intake CANS - Identified Needs (N)	count of entries/reentries that have either a SCYFIS or CHESSIE Intake CANS	
Percent of First Entries w/ CANS	percent of all first entries/reentries with completed Intake CANS	
Life Domain Functioning		
Priority # 1 - item require action	percent of total CANS	
Priority # 2 - item require action	percent of total CANS	
Priority # 3 - item require action	percent of total CANS	
Child Behavioral/Emotional Health Needs		
Priority # 1 - item require action	percent of total CANS	
Priority # 2 - item require action	percent of total CANS	
Priority # 3 - item require action	percent of total CANS	
Child Risk Behaviors		
Priority # 1 - item require action	percent of total CANS	
Priority # 2 - item require action	percent of total CANS	
Priority # 3 - item require action	percent of total CANS	
Intake CANS Service Intensity Level		
# Low (%)	percent of total CANS	based on the child's score
# Medium (%)	percent of total CANS	based on the child's score
# High (%)	percent of total CANS	based on the child's score
Total Foster Care Exits (all exits)	count	
FY 2011 exits	count	
FY 2012 exits	count	
FY 2013 exits	count	
Exits to Permanency (reuni, adopt, guard)	count	reunification, adoption, guardianship exits
Percent of Exits to Permanency	percent out of all exits	
Foster Care Reentries within One Year	count	
Percent of Reentries within One Year	percent of reentries within one year of exiting to permanency	
Exits to Reunification	count	
- Foster Care Reentries within One Year	percent out of all permanent exits	
Exits to Guardianship-Relative	count	
- Foster Care Reentries within One Year	percent out of all permanent exits	
Exits to Guardianship-Non-Relative	count	

- Foster Care Reentries within One Year	percent out of all permanent exits	
Exits to Adoption	count	
- Foster Care Reentries within One Year	percent out of all permanent exits	
Median length of time from Exit to Reentry	months	
<i>History Before Preceding Removal</i>		
- Prior Foster Care episode(s)	percent out of all reentries	percent of children exiting who had had an episode of FC prior to this one
- In-Home Service within year prior to removal	percent out of all reentries	percent of children exiting who had had In-Home Services prior to this FC episode
<i>Preceding Removal Episode</i>		
- Foster Care Placement prior to Exit	count	
Relative	percent	non-paid relative placements only (formal kinship care, THV, etc.)
Public Foster Care	percent	
Treatment Foster Care	percent	private and public TFC
Group Home	percent	
Residential Treatment Center	percent	
Independent Living	percent	
- Exited within 30 days	percent of total reentries	
- Lived with Relatives during Removal	percent of total reentries	
- Trial Home Visit during Removal	percent of total reentries	
<i>Between Last Exit and Reentry</i>		
- Received at least 1 Caseworker Visit after Removal	percent of total reentries	
- Received In-Home Services after Removal	percent of total reentries	
<i>Reentry - total reentries</i>		
Reentries from FY 2011 exits		
Reentries from FY 2012 exits		
Reentries from FY 2013 exits
