ONE IS BETTER THAN ONE

Queen Anne's County DSS demonstrates daily that ONE team is more effective than one person in the quality work we produce. ONE team is better than one person when we help each other learn new systems and policies. That ONE team brings more ideas to better serve our community.

Nearly half of Queen Anne's County's FIA Unit has less than 5 years of DHS/FIA service. We have embraced that fresh, new enthusiasm with seasoned experience to become ONE collaborating - forward-thinking - customer focused team who shares the same mission to serve.

So, whether attending connecting the dots as a group - huddled in a workstation looking at an E&E screen - discussing the best resource for a customer - or lifting each other up - we are one team looking after each other.
