FY2019 CLOSEOUT REPORT AND PROCEDURES
CLOSEOUT INSTRUCTIONS

CLOSEOUT OVERVIEW

The Office of Home Energy Programs (OHEP) State office requires that Local Administering Agencies finalize all applications and reconcile administrative and benefit funds at the end of each fiscal year. This process is known as Closeout. The Closeout Record must be maintained during the process of closing out the program year. The Closeout Record lists each task to be completed, provides space for the actual date completed, sign-off by the local OHEP director, and a comment section in the event problems may have prevented completion of the task by the specified deadline.

OHEP must account for all funds with the Federal Government, State Legislature, Public Service Commission and other entities. As such, it is critical that Administrative and Benefit financial reports be timely and accurate, and all refunds must be processed in a timely fashion. To this end, the Local Administering Agency plays a critical role in two key functions:

1. Tracking Energy Deliver Records for bulk fuel vendors and processing all related refunds; and
2. Reconciling and reporting Administrative funds and processing all related refunds to the State. For non-DSS Agencies, a check is to accompany the final Administrative Funds Report which reflects the amount that would appear in the "Cash on Hand" line of the June report. The check is to be made payable to: The Department of Human Services and mailed to the State OHEP office at 311 W. Saratoga Street, Baltimore, MD 21201.

Each LAA shall follow the instructions below for each activity required as part of the Closeout process. Please read the document completely, noting the requirements and deadlines. The instructions follow the list of tasks on the Closeout Record.

Per the Vendor Agreement, vendors must comply and will be followed up on by State OHEP with possible suspension from the program.
Beginning June 29, 2018, LAAS shall notify the state office on a weekly basis of any energy suppliers that have not fulfilled this obligation. E-mail the Vendor Report and Check Log of delinquent energy suppliers to Bill Freeman, Director at Bill.freeman@maryland.gov

The Final MEAP Benefit Expenditure and Administrative Reports are due by the close of business July 15, 2018. Include a check for advanced MEAP funds and Administrative funds due to be returned. Submission of the Final MEAP Benefit Expenditure Report and Administrative Report indicates that the agency’s records are reconciled to the expenditures reported. This means that fiscal information is recorded in all the applicable and appropriate places, including, but not limited to, the OHEP database, agency ledgers and check registers, expenditure reports and weekly workload reports.

For the June reports the reversion of funds to DHS is a negative amount on the State Advances line of the report and $0 in Cash On Hand. This means that the total cash received line and the total expenditures line will be equal. Checks for the amounts being returned for the MEAP and Administrative funds to the state are made payable to the Department of Human Services and mailed to the OHEP state office with this report.

LAA Agency Letterhead

Supplier Name

Dear OHEP Energy Supplier:

Enclosed is the Energy Delivery Record (EDR) detailing payments from the Office of Home Energy funds in FY 2019. Please review and update the information and return by June 22, 2018. Per your supplier agreement, you may substitute a report with the same information as required on the EDR form if a waiver is requested and approved by OHEP.

Vendors must deliver energy assistance benefits to active customer accounts no later than the end of May in the following fiscal year from the date of the Energy Delivery Statement (EDS) received. The State fiscal year is July 1 – June 30. For example, if a customer receives a $1,600 oil benefit with EDS Sent Date of 12/5/2017, but you were unable to deliver the benefit to the household for the current heating season, $800 of the leftover grant may be used for delivery of fuel in the next heating season, so long as the balance is exhausted by the end of May 2019.

If you are unable to deliver benefits within the allowable timeframe, you must return undelivered benefits to this office. If a customer’s account becomes inactive, as defined as a customer who has died, moved from the vendor’s service area, changed fuel type, becomes institutionalized or otherwise terminates active service with the vendor, you must return any undelivered energy assistance benefits within thirty (30) days of the time the account is terminated.

If MEAP customers have not used all of the benefit funds received by your company, unused balances as described above must be accounted or refunded to this Office.

1. Return funds by June 22, 2018 if the client is no longer a customer.
2. Your company may retain unused funds on customer’s account for a future delivery or to pay an existing bill with your company. You must send a statement of the customer’s account balance before June 22, 2018.

Checks should be made payable to MEAP.

Please complete and return a signed copy of the attached EDR and the EDR verification by June 22, 2018. Failure to do so may delay your participation in next season’s heating assistance program.

If you have any questions, please feel free to contact me at .

Sincerely,
